Critical Use Comments:

- DO NOT apply more than one (1) spray application per crop.
- Apply as a broadcast ground rig application in a total water volume of 50 – 200 L/ha.
- Apply to bare soil after conventional cultivation and sowing.
- Treat infested paddocks after sowing and before or soon after seedling emergence/transplanting.
- Use the higher rate on heavier infestations and for longer residual protection.
- Where possible, use in rotation with other chemicals approved for this purpose.
- Dangerous to fish and aquatic organisms. DO NOT contaminate waterways with product or used containers.
- Dangerous to bees. Spray in the early morning when bees are not actively foraging.

Withholding Period:

Harvest: Not required when used as directed.

Grazing: Nil.

Jurisdiction:

ALL STATES, except Victoria.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that state.

Additional Conditions:

This permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

Export of Produce:

To allow produce from treated plants to be supplied or otherwise made available for human consumption, the APVMA has established the Maximum Residue Limits (MRLs) for bifenthrin. These limits apply only to produce marketed and consumed in Australia. If treated produce is to be exported, due account should be taken of the residue definition and residue limits/import tolerances of importing countries. Any residues must not exceed those requirements of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: This use pattern previously permitted under PER81196 and PER12947.
