Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT**

TO CONTROL SELECTED WEEDS IN SILVERBEET AND SPINACH

PERMIT NUMBER - PER14703

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 1 AUGUST 2014 TO 31 JULY 2022

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LTD
Level 8, 1 Chifley Square
SYDNEY NSW 2000

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Product to be used:

TRAMAT 500 SC SELECTIVE HERBICIDE (APVMA No. 39508)

PLUS OTHER REGISTERED PRODUCTS

Containing: 500 g/L ETHOFUMESATE as the only active constituent.

Directions for Use:

Crop	Purpose	Rate
SILVERBEET Pre-emergence Use ONLY	Weeds as listed on the product label	4 or 6 L product/ha
SPINACH (<i>Spinacia oleracea</i> ONLY) Pre-emergence Use ONLY		2 or 3 L product/ha

Critical Use Comments:

- Observe all label RESTRAINTS.
- DO NOT rotate with crops other than beet crops for 6 months after application.

Silverbeet:

- Pre-emergence: apply before weed or crop emerges.
- Apply only ONE application per crop – immediately before or immediately after sowing.
- Apply in accordance with *Directions of Use* as stated in the product label for pre-emergence use in beet crops.

Spinach:

- Pre-emergence: apply before weed or crop emerges.
- Apply only ONE application per crop – immediately before or immediately after sowing.
- DO NOT mechanically incorporate product.
- Apply with boom spray in a minimum of 100 L water per hectare.
- Use lower application rates in lighter, sandier and/or low organic matter soils. On these soils, irrigation after application should be limited to no more than 25 mm.
- The sensitivity of some species and varieties of *Spinacia* to be treated under this permit has not been fully evaluated. It is advisable, therefore, to only treat a small number of plants to ascertain their reaction before treating larger areas.
- Apply in accordance with *Directions of Use* as stated in the product label for pre-emergence use in beet crops.

Withholding Period:

NOT REQUIRED WHEN USED AS DIRECTED.

Jurisdiction:

All States and Territories, except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that State.

Additional Conditions:

This permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

TO AVOID CROP DAMAGE:

The sensitivity of some species and varieties of crops to be treated under this permit has not been fully evaluated. Therefore, it is advisable to only treat a small number of plants to ascertain their reaction before treating a larger area.

EXPORT OF PRODUCE:

To allow treated produce to be supplied or otherwise made available for human consumption a temporary Maximum Residue Limit (TMRL) has been established for Ethofumesate covering the commodity Spinach at T1 mg/kg. A permanent MRL has been established in the MRL Standard for Chard [Silverbeet] at 1 mg/kg. These MRLs only apply to produce marketed and consumed in Australia. If treated produce is to be exported, due account should be taken of the residue definition and residue limits/import tolerances of importing countries. Any residues must not exceed requirements of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 09/05/2019 – Expiry date extended to 31/07/2022. Issued as version 3.

02/05/2018 – Permit amended to update holder details. Issued as version 2.
