---

### Overview

---

The Table Grape Strategic Investment Advisory Panel met via teleconference on Thursday 14<sup>th</sup> February 2019.

The primary aim of this SIAP meeting was to review, discuss and seek advice from the panel on seasonal critical concepts and projects coming to an end.

The Chair, opened proceedings, welcoming all panel members, governance and any conflict of interests.

The Hort Innovation, Relationship Manager presented an update on Hort Innovation since the previous meeting and reconfirmed the objectives of the meeting.

The Table Grape Fund Manager presented a financial update.

The following Research, Development and Extension concepts were discussed at length:

- Australian Dried Fruit and Table Grape Industries Communications Program
- Trapping Efficacy in Table Grape Vineyards for AWM of Queensland Fruit Fly that Supports Market Access
- Biosecurity Preparedness Through Developing Capacity for In-field Detection of Spotted Winged Drosophila

The R&D Manager shared with the table grape SIAP, an update which will see the creation of a new concept on: Verification of cold treatment efficacy to establish market access.

### Next steps

---

Hort Innovation will arrange a teleconference to discuss the new concept: Verification of Cold Treatment Efficacy to Establish Market Access.

The SIAP will interact over the coming months to further refine the supported concepts to reinforce the value of these concepts to the industry and enhance the procurement process before moving towards contracting.

Anyone seeking information about the SIAP, the table grape Strategic Investment Plan or any other levy related issue should contact Mark Spees at Hort Innovation on the details below.
