**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW EMERGENCY USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF FALL ARMYWORM IN OLIVES**

PERMIT NUMBER – PER89327

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 24 MARCH 2020 TO 31 MARCH 2023

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LTD
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

SUCCESS NEO INSECTICIDE (APVMA No. 64109)

Containing: 120 g/L SPINETORAM as the only active constituent.

Restrains:

Comply with all restraints on the product label.

Directions for Use:

Crop	Pest / Disease	Rate
Olives	Fall Armyworm (<i>Spodoptera frugiperda</i>)	20 mL / 100L

Critical Use Comments:

- Regularly scout crops to monitor for eggs and larvae. Treat when pests appear, targeting eggs and newly hatched larvae before the pest becomes entrenched.
- Apply by airblast sprayer or equivalent, in enough water to ensure thorough coverage of the crop.
- DO NOT apply more than two (2) applications per season, with a minimal retreatment interval of 21 days.
- Refer to the Insecticide Resistance Management statement on the product labels to prevent or delay the development of resistance.

Withholding Period:

HARVEST: DO NOT harvest for 21 day after application.

GRAZING: DO NOT allow stock to graze any treated olive grove floor or cut the olive grove floor for stockfood.

Jurisdiction:

All States and Territories, except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that State.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

To Avoid Crop Damage

The sensitivity of the crop to be treated under this permit has not been fully evaluated. It is advisable to only treat a small area to ascertain the reaction before treating the whole crop.

Export of treated produce

MRLs can be found in the *Agricultural and Veterinary Chemicals Code (MRL Standard) Instrument 2019*. MRLs apply only to produce marketed and consumed in Australia. If treated produce is to be exported, residues must not exceed the limits/tolerances of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority
