Key Insights

6 Needs Pillars Drive All Consumption Choices

Taste and Convenience Are Table-stakes Meal Occasion has the next Biggest Influence on Choice

Advantages can Drive Growth in 'Heartland' Territories Poor Quality is the Biggest Barrier to Growth

All consumption of fresh produce is driven by 6 unchanging consumer needs:

- 1. Taste
- 2. Quick & Easy
- 3. Healthy & Nutritious
- 4. Indulgence
- 5. Physical & Mental Energy
- 6. Connection

KANTAR

While **Taste** and **Quick & Easy** are an **expectation** for all consumption territories, growth opportunities exist for many commodities by distinctively delivering to **'Second Order'** Needs While the 6 Needs Pillars are the primary driver of commodity choice, the next most predictive factor that determines consumers' choice for fresh produce is Meal Occasion:

- 1. Breakfast
- 2. Lunch
- 3. Dinner
- 4. Dessert
- 5. Snack

Highlighting where commodities have a advantages in key territories can be leveraged to improve distinctivity and drive consumer choice Consumers cite **poor quality** as the most significant **impediment to choosing** fresh produce, and overcoming specific quality barriers is a necessity for most commodities to realise incremental growth opportunities

2. Background and Objectives

Background

KANTAR

- To support and guide an approach to the delivery of industry-leading consumer insights, Hort Innovation developed a Consumer Insights Strategy 2022-2026 in late 2020.
- The Strategy identified three pillars of activity with the overall vision "By 2026, consumer understanding is at the heart of our thinking and actions."
- Our research proposal is aligned with the second strategic pillar: bringing consumers into focus and will be delivered through MT21003 Consumer Demand Spaces for Horticulture project outcomes.

Objectives

- The objective of this project is to help Hort Innovation provide a foundational demand spaces framework for the horticulture sector.
- This framework will support levy players, industry stakeholders and value chain members in identifying "where to play" and "how to win" when seeking to engage consumers.
- The demand space foundational framework will support the identification and prioritisation of growth opportunities which will uncover tangible avenues for industry stakeholders and Hort Innovation to drive ongoing campaign and product development strategies to elevate demand for each category.

3. Approach and Methodology

Approach

1. Audit & Discovery

Project Kick Off Knowledge Audit Stakeholder Workshop

Outcomes from Phase 1:

• Clear understanding of key hypotheses and inputs into later stages of work and alignment on the knowledge gaps.

2. Localise & Enrich

Qualitative Online Community

Outcomes from Phase 2:

- In-depth market understanding of occasion-based needs, identifying drivers, barriers, gaps and unmet needs across the Australian market for fresh produce.
- Key inputs into the quantitative phase.

3. Develop Growth Plan

Quantitative Demand Space Modelling Quantitative Emotive Reasoning (NeedScope¹)

Outcomes from Phase 3:

- Demand Space Model that maps all commodities, identifying 'Where-to-Play' and 'How-to Win'.
- NeedScope¹ framework that outlines the optimal emotive positioning for each commodity.

4. Align & Embed

Assimilation and Debrief Workshops:

- Debrief
- Where-to-Play and How-to-Win

Outcomes from Phase 4:

- Aligned Team trained, engaged and ready to activate clear missions & jobs to be done against prioritized horizons.
- A unified growth narrative tailored and fit for purpose for key stakeholder groups.

Research Methodology

Qualitative

- Online qualitative community
- Australia-wide with a cross-section of the general population
- N=40 consumers
- 5 x day moderated
- Members spent approximately 4-5 hours contributing daily to individual and group discussions, reacting to stimulus and building detailed response feedback
- Totalling **over 1,000 hours** of responses from community members

Quantitative

Demand Space Model

- N= 4,000, Australia wide, national representative sample
- 25 minute **survey**
- Category usage across fruit, veg and nuts
- Category usage across fruit, veg and nuts
- Primary or shared grocery buyer for household
- Asked about their own most recent consumption of two of the 31 commodities that they consume frequently

9

4. Context Impacting Consumer Choices

It is the purchasing moments that play the biggest role in fresh produce selection, rather than consumption moments.

Two key shifts in people's approach to food have impacted the role of fresh produce: role of regionality and role of meals.

Shift 1: The role of regionality: from Australian to local

From: Proudly purchasing <u>Australian</u> produce

- Supporting Aussie farmers has long been a driver of purchasing, along with Australian produce being seen to be of better quality
- Australian produce provides reassurance of quality controls, better growing conditions and health of food overall

To: Proudly purchasing Local produce

- Supporting local farmers and areas, contributing to local communities and states. This is particularly prevalent in WA (Buy West, Eat Best campaign performing well).
- Moving more towards areas of regionality where certain produce shines (similar to wine) e.g. Riverina Apples

KANTAR

Shift 2: The changing role of meals: Breakfast and Dinner play a bigger role

From: Lunch punctuating the day

- Something that involved effort, either through planning and preparing something prior to leaving home or purchasing at work
- Provided people an opportunity to break up their day by stepping away from the workplace, particularly if going out to buy lunch
- Breakfast was often quick and on the go, dinner something low effort so lunch was more of a treat

To: Breakfast and Dinner being the heroes

- Movement to working from home means people grab and go from whatever's in the fridge, rarely is lunch purchased
- Breakfast and dinner play a bigger role, more care and consideration goes into preparation as there is more time at the bookends of the work day

Early imprints of produce also play a critical role in how consumers approach fruits, vegetables and nuts.

Childhood experiences and early imprints of food impact individual repertoire and engagement with fresh produce

What people were exposed to when they were young, in particular what fresh produce was used (and how) largely sets people up for how they use it as they get older.

People who've become more engaged with food and/or cooking tend to be the exception. They've made an effort to broaden their horizons, inspired by recipes or other experiences.

This is food I grew up with, so have eaten it all my life. I suppose that's why I eat more of these than of other vegetables. They're my staples for roasts and just yummy."

Male, S/DINK

"I have vegetables that I buy and eat every week. They work well in most recipes and meals that I make, and there's some that are interchangeable, like sweet potato instead of potato so I know things will always turn out alright."

Female, S/DINK

When selecting what to eat, people are limited by what's available to them, rarely do they seek out something specific

Few people are set on a particular piece of produce when they have a consumption moment, rather they choose what works for the moment that they're in based on what's readily available.

Ultimately, while the choice in the moment of consumption is important, the bigger decision comes in the purchase moment.

People tend to shop based on the type of meals they expect to have, with a healthy dose of flexibility.

While people may not know exactly what they're going to purchase, they broadly know the types of produce they need or intend to buy.

Most people are habitual in both their consumption and shopping choices, and therefore have a set repertoire based upon the type of meals they're going to have over the community days/week.

This allows them to then make a choice for the best value at the time.

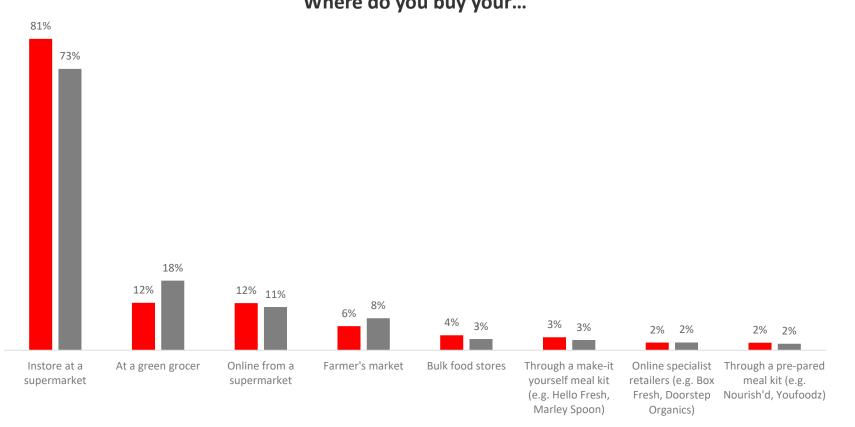

"We have standards items that we get every time, and supplement that with what's on special or best in season, as long as they fit in with what I usually cook." Female, Family

DAIRY

KANTAR

Groceries are overwhelmingly purchased in store at a supermarket

Nearly 1 in 5 consumers get fresh produce from a green grocer

Where do you buy your...

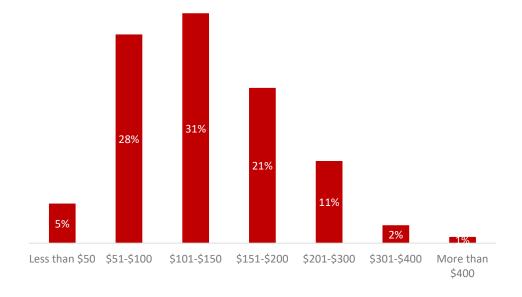

Over half of consumers are spending between \$100-\$200 a week on groceries

Consumers estimate that about 35% of their weekly grocery bill is spent on produce

In a typical week, how much do you spend on groceries?

Estimated share of grocery cost spent on fresh produce specifically in a typical week

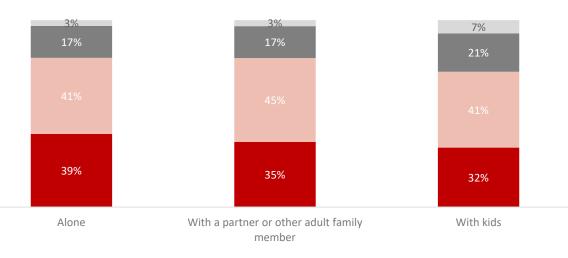

Consumers like to use a list, although they are open to spontaneous purchases

Attitudes towards new and different items differ across the consumer base

Which would you say describes your shop when shopping...

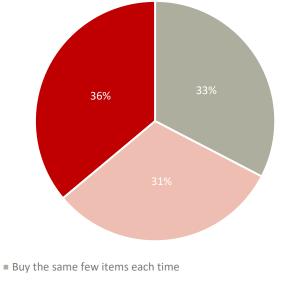

I decided what to buy spontaneously

■ I had a rough idea of what I would be buying beforehand

I had a shopping list but I also made spontaneous purchases

■ I knew exactly what I would be buying beforehand / I shopped from a shopping list

- Often buy a variety of new / different things
- Mostly buy the same items but try a few new/different things

KANTAR

N=4,002

Source: Kantar HIA Domestic Growth Study 2022

Price aside, the biggest purchase drivers are Australian grown and in season

Consumers are hesitant to try new items without a recipe or knowledge of how to prepare it

50%

The price of the produce Australian grown 43% In season 37% Produce that looks appealing (fresh, ripe etc) 33% On special 32% Produce that I know my household will like/eat 31% Staple items that I always buy 26% Locally grown 24% Produce I know how to prepare 20% Convenient to prepare/eat 19% Produce for specific recipes/meal plans 18% Has the nutrition my mind/body needs 18% The style of cuisine I like to cook 13% No or limited plastic packaging 12% Organic 8% Produce that is new and different 4% Appealing packaging 3%

ΚΔΝΤΔΡ

When shopping for fresh produce what determines your choice?

What would encourage you to purchase fresh produce you wouldn't normally buy?

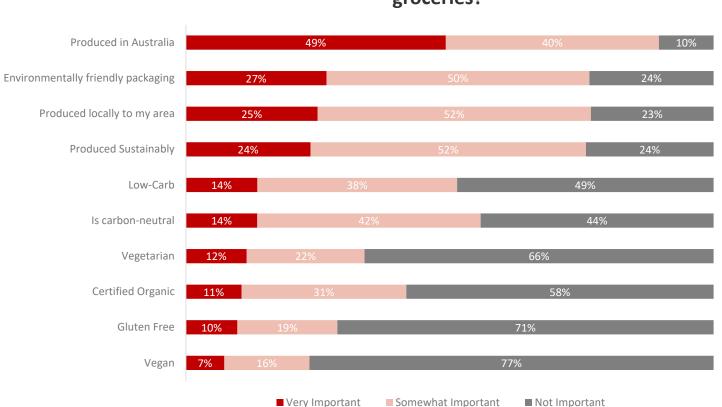

N=4,002 Source: Kantar HIA Domestic Growth Study 2022

Locality and sustainability are what consumers are looking for from groceries

Dietary claims like Vegan and Gluten-free are less important to most consumers

How important are the following when purchasing groceries?

5. Introducing the Demand Space Framework

What can the Demand Space framework do?

Represent a total Australian market map of commodity consumption that shows where commodities are strong today, and could grow in the future.

Additionally:

Diagnostics

Understanding the consumption landscape of fresh produce, quantifying demand, and where some commodities have advantages over others.

Understanding drivers and barriers within key consumption territories.

KANTAR

Competitive Mapping

Identify the distinct consumption territories that certain commodities can deliver against.

Map the commodities' performance compared to substitutes, and their relative performance.

Opportunity Identification

Defining 'Where to Play' -Identifying which consumption territories will unlock growth for certain commodities.

Activation Guidelines

Guiding stakeholders on '*How to Win*', and what consumers are looking for in key consumption territories.

Identify best in class commodities to understand why and how they are winning.

How did we build it?

What We Used...

What We Did...

- Commodity Consumption Frequency (Z6)

- Occasion Needs (C8)

- Principle Component Analysis
- Cluster Analysis
- Correspondence Mapping
- Qualitative Validation

• 6 Needs Pillars

What We Got...

• 5 Meal Occasions

We have identified **6** needs pillars, born of unchanging consumer needs that drive consumption choices of fresh produce

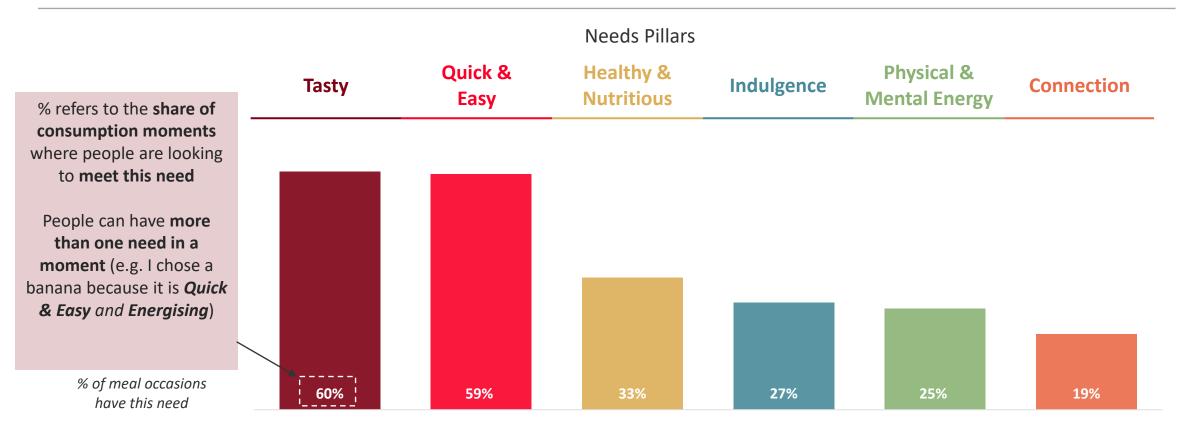

Needs Pillars

In over half of all fresh produce occasions consumers are in search of something *Tasty* and *Quick & Easy*

N=4.002

Question: How important were each of the following when you chose to consume commodity name at occasion time?

Additional detail in Appendix B

KANTAR Source: Kantar HIA Domestic Growth Study 2022

The 6 needs pillars form the first of two dimensions that make up our Demand Space framework

The meal occasion has the biggest influence on commodity choice, making it a natural second dimension of the Demand Space framework

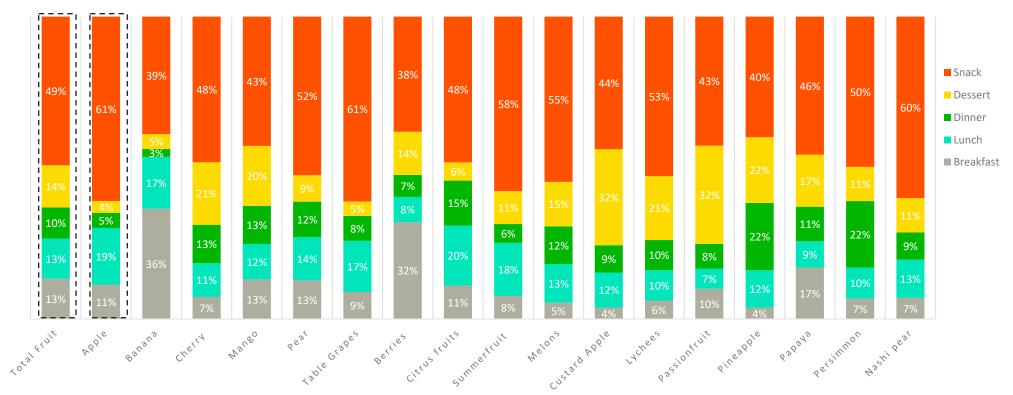

Breakfast	Morning meal
Lunch	Mid-day meal
Dinner	Evening meal
Dessert	Post-dinner
Snacks	Between meals

Fruit by consumption occasion

Snack Occasions are 61% of Apple occasions, which is an over-representation vs 49% for All Fruit. Lunch is 19% of all Apple occasions, another over-representation vs 13% for All Fruit.

Occasion Share of Sub-Category

Mango 🔊

Apples

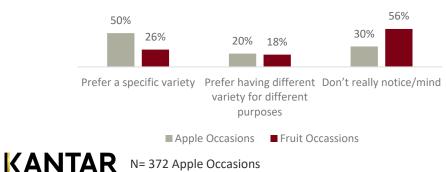

Apple occasions are similar to all Fruit occasions, with a skew towards Snacks and more likely to be eaten fresh on their own than other fruits.

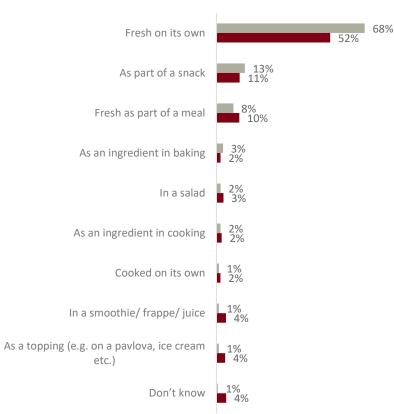

As a meal on it's own As part of a meal

When you typically buy or eat apples do you prefer a specific variety?

R N= 372 Apple Occasions Source: Kantar HIA Domestic Growth Study 2022

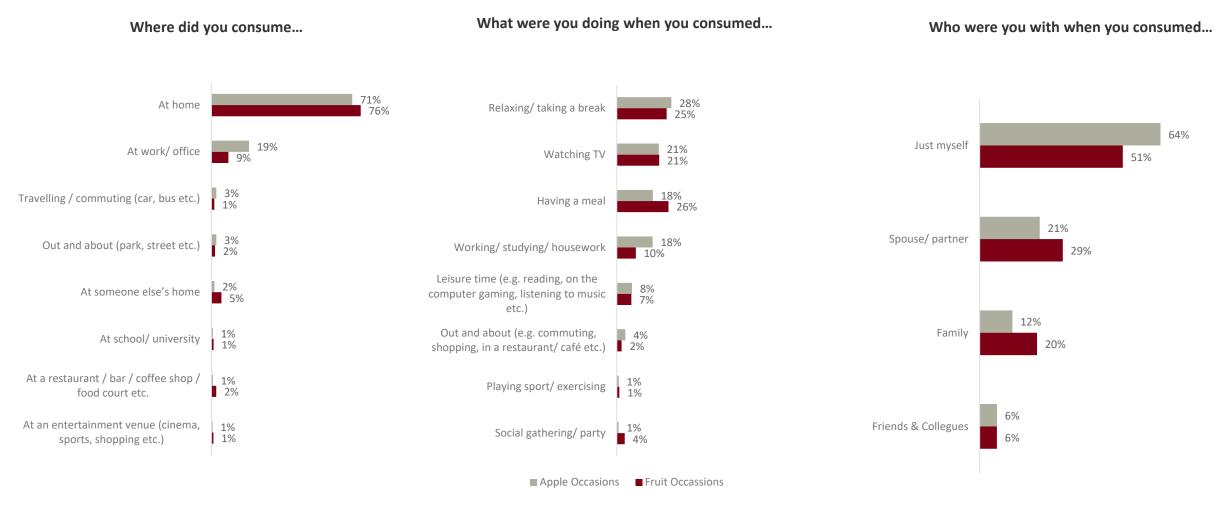

How did you eat...

■ Apple Occasions ■ Fruit Occassions

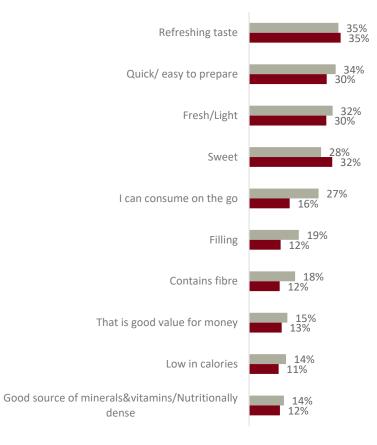

Although mostly eaten at home, people are more likely to eat an Apple at work than other fruits. People eat Apples when they're working, studying or during downtime

Hort Innovation ⁴¹

KANTAR N= 372 Apple Occasions Source: Kantar HIA Domestic Growth Study 2022 When consuming an Apple, consumers are looking for refreshing taste, ease of preparation and freshness, more so than with other fruit

Key Functional Needs

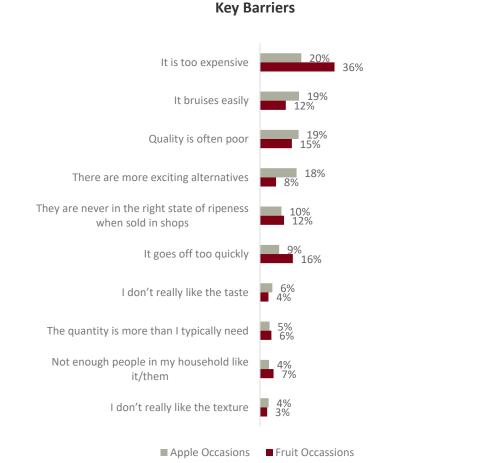

■ Apple Occasions ■ Fruit Occassions

Filing and convenience are standout features for Apples and whilst people want fresh and light these aren't necessarily standouts for Apples

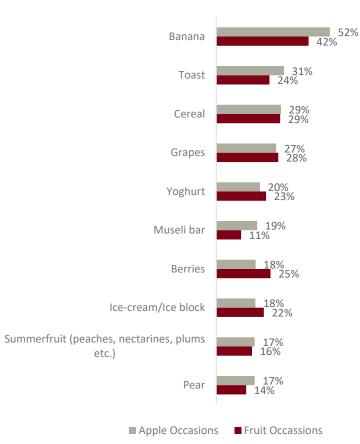

N= 372 Apple Occasions
 Question: What were you looking for when you consumed *commodity name*?
 Source: Kantar HIA Domestic Growth Study 2022

The most significant barriers for Apple purchase are bruising and unreliable quality. They are also challenged by more exciting alternatives

Key Substitutes

Like all fruit, Apples are highly substitutable, with the large categories like Banana, Grapes and Berries being easy alternatives. Pears have lower than expected substitutability for Apple buyers.

How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They selected the top 3-5 reasons that they chose to consume the commodity.

How to read the data

The charts provide the % who selected each reason for choosing the commodity. The higher and lower than average bars indicate higher and lower % scores for the commodity vs. the average of all fruit.

How to use the data

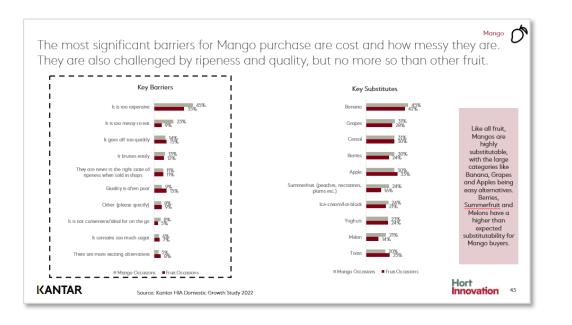

Attributes that have high scores are the most important reasons that people choose the commodity. Attributes that are higher than average are strengths for the commodity vs other fruit sub categories.

KANTAR

How to use this report

Slide 44: Category Barriers

How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They were asked to select all the reasons they may not choose the commodity in that same occasion.

How to read the data

The charts provide the % who selected each reason they may not choose The commodity. The higher and lower than average bars indicate higher and lower % scores for the commodity vs. the average of all fruit.

How to use the data

Attributes that have high scores are the most important reasons that people don't choose the commodity. Attributes that are higher than average are bigger barriers for the commodity than for other fruit. Attributes that are lower than average are smaller barriers for the commodity than other fruit.

KANTAR

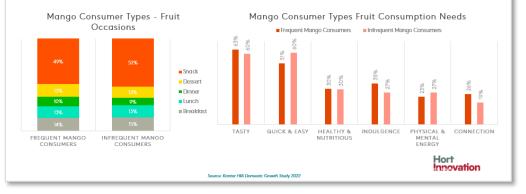

How to use this report

Slide 45: Light v Heavy Users

Fruit Usage

Frequent and Infrequent Mango consumers share the same Fruit consumption occasions and have the same consumption needs.

Infrequent Mango consumers tend slightly towards Quick & Easy and Snacks, yet still have plenty of room for Tasty and Indulgence.

How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They were asked to select all the reasons they may not choose the commodity in that same occasion.

How to read the data

Mango

The charts provide when consumers last ate the commodity and the % who selected each reason for choosing the commodity.

The charts show light users vs heavy user. Heavy users eat the commodity at least once a fortnight. Light users eat the commodity once a month or less.

How to use the data

Attributes that have high scores are the most important reasons that people choose the commodity.

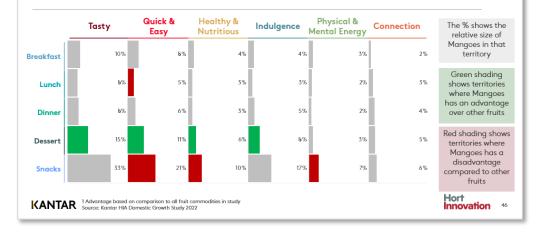

How to use this report

Slide 46: Category Territories

The Mango Territories

Mango have a strong advantage as a Tasty and Convenient Dessert compared to other fruit

How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They selected the top 3-5 reasons that they chose to consume the commodity. Using an understanding of their occasion and their needs, we map the commodities 'territories' against the Horticulture Demand Framework.

How to read the data

Mango 🔿

This provides the % of all the commodity's needs and occasions. As respondents had an average 2.2 needs for every occasion, the numbers add up to more than 100%. The green and red bars indicate respectively higher and lower %'s for the commodity compared to the average of all fruit.

How to use the data

High %'s are the largest demand territories for the commodity. Territories that are higher than average are strengths for the commodity vs other fruit sub categories. Territories that are lower than average are weaknesses for the commodity vs other fruit sub categories.

6. Appendix B: Needs Pillar Detail

Tasty

We all have to eat, right? But if I'm going to really satisfy my hunger I need something that is super tasty, that tantalizes my tastebuds and stimulates all my senses.

Food should always be satisfying with a refreshing buzz that even the pickiest of eaters in the household will eat!

Tasty Needs to deliver...

A refreshing sensory experience that promises delicious and consistent tastes that everyone loves

Really Tasty

Produce that provides a great sensory experience

Refreshing

Produce that refreshes the palate

Everyone will eat it

Produce that I know everyone in my house will like and eat

Tasty

Food is seen as a pleasure rather than a fuel

Table stakes for all meal occasions – heightened for weekend dinners

Typically with partner & family

Quick & Easy

We're about to head out and we need a snack that we can eat while we're on the go – it's been a busy day so it's going to have to be something we already have in the fruit bowl.

I'm getting hungry and thinking about dinner but I can't be bothered to cook. I need something that is quick & easy, that I've made a million times and that doesn't require much thought – I'm thinking omelettes!

KANTAR

Quick & Easy Needs to deliver...

A convenient experience that doesn't require much thought or preparation and good to go

Quick & Easy

Produce that requires little to no preparation

Doesn't require much thought

Produce I know what to do with

Can consume on the go

Produce that is good for eating on the go

Already had it available

Produce that is readily available at home/work

Quick & Easy

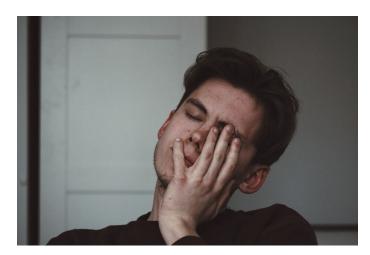

I'm not in the mood to cook and often eat the same thing out of habit

Most important for those snacking moments – and also weekday dinners

Typically on my own

Healthy & Nutrition

Your health is your wealth and so I really try and focus on making sure I cram my body full of all the goodness it needs with three healthy meals a day.

I make sure to be careful with what I eat during the week ensuring I meet certain macro nutritional goals to help maintain my weight as I get older. This also means I can indulge a little on the weekend and not feel guilty about it!

Healthy & Nutritious Needs to deliver...

A guilt-free experience that provides me all the goodness my body needs

Nutrition my mind/body needs

Produce that provides the nutrition my body needs to thrive

Guilt-free

Produce that I don't have to feel guilty about eating

Weight management

Produce that helps me manage my weight

Nutritional goals

Produce that helps me meet my macro/nutritional goals

Healthy & Nutritious

What are you looking for? (\square)

I prefer to eat more vegetables & less meat

🕑 When?

Most important for main meals – particularly during the work week

Typically on my own

Indulgence

Food can be such a pleasure and life is for enjoying! When you've had a long week there is nothing better than making a dish close to your heart whether that's my grandma's apple pie or my partner's favourite pasta.

It's a moment to treat yourself and unwind from the week. And when you are craving something close to your heart nothing else quite hits the spot!

Indulgence Needs to deliver...

An indulgent experience that provides me with a moment of pure pleasure and comfort

Treat myself or others

Produce that feels like an indulgence

Satisfy a craving

Produce that satisfies what my body is craving

Relax & Unwind

Produce that helps me relax and unwind

Comforting

Produce that provides comfort or is nostalgic

Indulgence

I'm happy to pay a premium for quality food in this moment

🕑 When?

Most prevalent when eating dessert & snacking

Can be either on my own or with family and friends

Physical & Menta Energy

I make sure to start my day with a breakfast that will provide me with long sustaining energy to see me through my busy day at work.

By mid afternoon my motivation is dwindling. My stomach is rumbling and I am craving a snack. I need something that will satisfy my hunger and give me that burst of energy to make it through the rest of my work day.

KANTAR

Physical & Mental Energy Needs to deliver...

An reinvigorating experience that fuels my body and provides me with the energy I need

Quick energy boost

Produce that provides an immediate burst of energy

Long lasting energy

Produce that gives me a sustained energy boost

Stops hunger

Produce that stops me feeling hungry

Physical & Mental Energy

What?

In this moment, food is a fuel more than a pleasure

Breakfasts, snacks and sometimes lunch – particularly during the week

Most commonly on my own

Connection

Is there anything better than connecting over a meal with the ones you love? Food has such a great way of bringing people together.

I love the festive season for exactly this reason! Some of my favourite foods come into season and I get to enjoy and explore new and different flavours that we don't usually eat in our regular meals

Connection

Needs to deliver...

A unifying experience that creates a special moment with something a bit different

Good for sharing

Produce that is good for a crowd

Create a special moment

Produce that makes a moment more special

Festive

Produce that is celebratory of the moment

New & different

Produce that provides new or different tastes and flavours

Connection

In this moment I enjoy trying new tastes & cuisines 🕑 When?

Desserts and weekend dinners

Family & friends

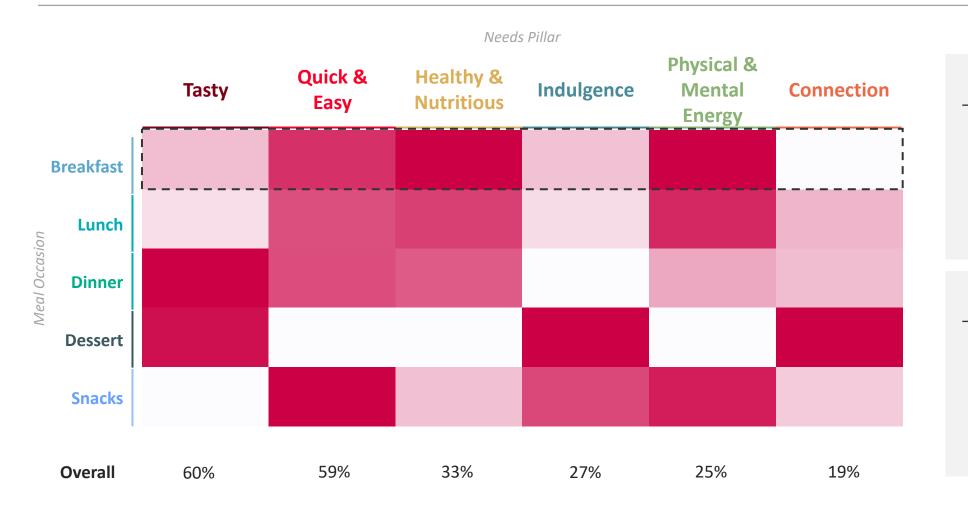

6. Appendix C: Demand Space Detail

Hort Innovation 72

H Breakfast

At Breakfast time Needs skew towards Convenience and Health

Breakfast is all about Health, Convenience & Energy

At Breakfast time people are not typically looking for Connection or Indulgence

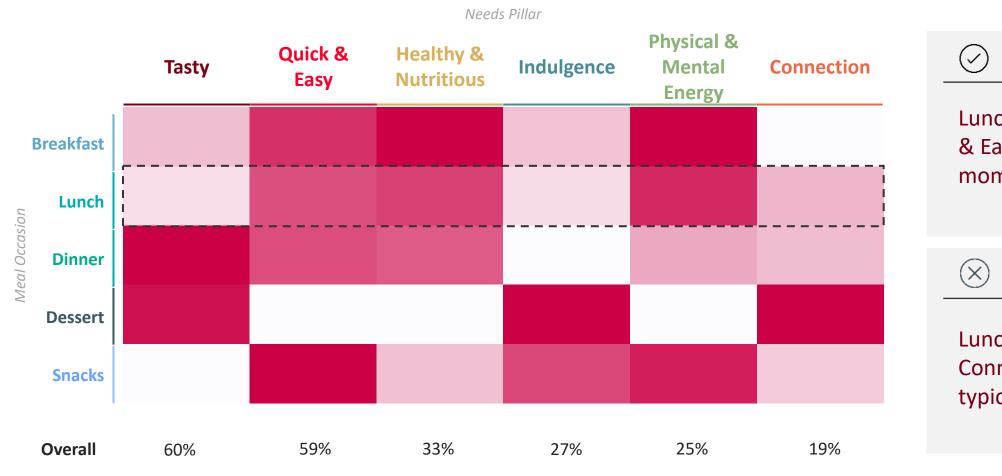

Lower Needs Share

The darker the colour, the more the meal occasion over indexes in that needs pillar

U Lunch

Lunch is about being sensible – Energy, Health and Convenience trump

What it is

Lunch needs to be Quick & Easy and a Nutritious moment

Lunch is less about Connection and not typically Indulgent

Source: Kantar HIA Domestic Growth Study 2022

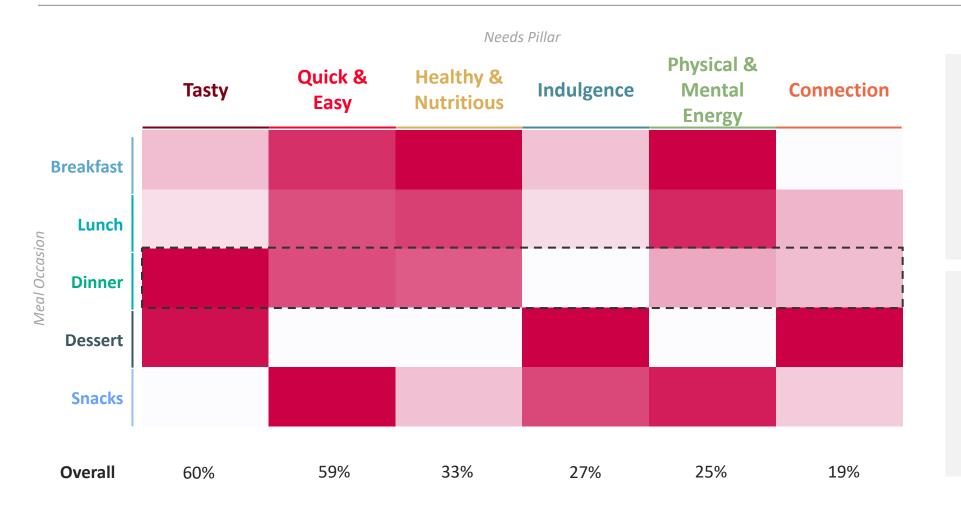

Lower Needs Share

The darker the colour, the more the meal occasion over indexes in that needs pillar

Dinner

Dinner needs to be liked by everyone in the household

What it is

Dinner needs to be Tasty and Something Everyone Will Like that Doesn't Take too long to Prepare

It's the end of the day and I'm not looking for an Energy Boost from Dinner

Source: Kantar HIA Domestic Growth Study 2022

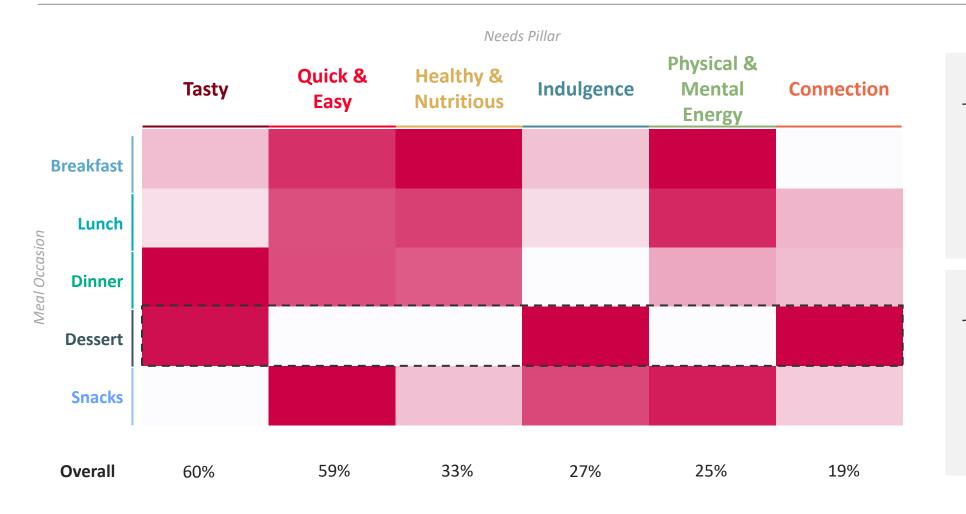

Lower Needs Share

The darker the colour, the more the meal occasion over indexes in that needs pillar

U Dessert

Dessert is all about Connecting and Indulging

 \bigcirc What it is

Dessert is a moment for true Indulgence & Connection with those around me

I don't mind if Dessert takes a little more Effort and I'm not thinking too much about Nutrition

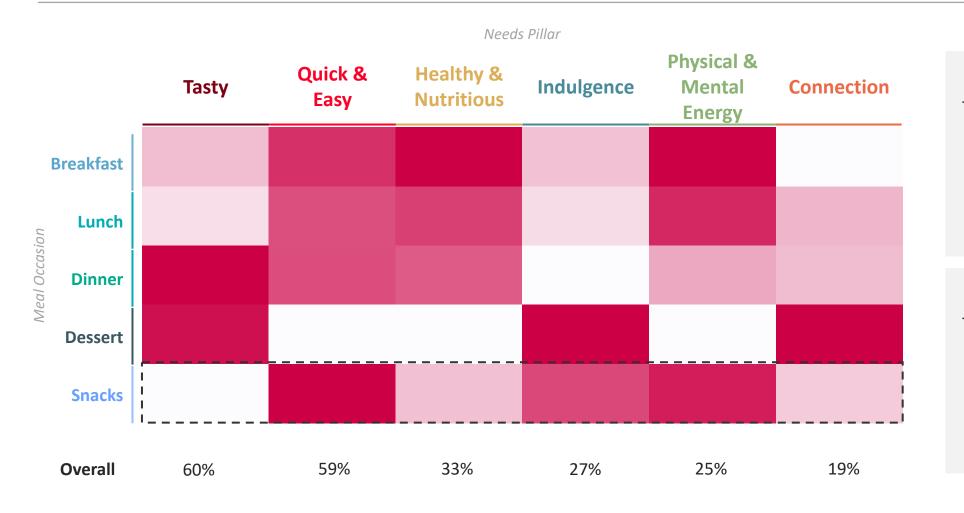

Lower Needs Share

The darker the colour, the more the meal occasion over indexes in that needs pillar

¶¶ Snacks

Snacks need a feeling of Indulgence while being Quick & Easy

What it is

Convenience is king here. I'm looking for Energy & a small feeling of Indulgence from my snacks

I'm generally on my own and not looking for anything overly Healthy when Snacking

Source: Kantar HIA Domestic Growth Study 2022

Lower Needs Share

The darker the colour, the more the meal occasion over indexes in that needs pillar
