# Key Insights

## 1

### 6 Needs Pillars Drive All Consumption Choices

All consumption of fresh produce is driven by 6 unchanging consumer needs:

1. **Taste**
2. **Quick & Easy**
3. **Healthy & Nutritious**
4. **Indulgence**
5. **Physical & Mental Energy**
6. **Connection**

## 2

### Taste and Convenience Are Table-stakes

While **Taste** and **Quick & Easy** are an **expectation** for all consumption territories, growth opportunities exist for many commodities by distinctively delivering to **'Second Order'** Needs

## 3

### Meal Occasion has the next Biggest Influence on Choice

While the 6 Needs Pillars are the primary driver of commodity choice, the next most predictive factor that determines consumers' choice for fresh produce is Meal Occasion:

1. **Breakfast**
2. **Lunch**
3. **Dinner**
4. **Dessert**
5. **Snack**

## 4

### Advantages can Drive Growth in 'Heartland' Territories

**Highlighting** where commodities have a **advantages in key territories can be leveraged to improve distinctivity and drive consumer choice**

## 5

### Poor Quality is the Biggest Barrier to Growth

Consumers cite **poor quality** as the most significant **impediment to choosing** fresh produce, and overcoming specific quality barriers is a necessity for most commodities to realise incremental growth opportunities

## 2. Background and Objectives

# Background

- To support and guide an approach to the delivery of industry-leading consumer insights, Hort Innovation developed a Consumer Insights Strategy 2022-2026 in late 2020.
- The Strategy identified three pillars of activity with the overall vision **“By 2026, consumer understanding is at the heart of our thinking and actions.”**
- Our research proposal is aligned with the second strategic pillar: bringing consumers into focus and will be delivered through MT21003 Consumer Demand Spaces for Horticulture project outcomes.

# Objectives

- The objective of this project is to help Hort Innovation provide a foundational demand spaces framework for the horticulture sector.
- This framework will support levy players, industry stakeholders and value chain members in identifying **“where to play”** and **“how to win”** when seeking to engage consumers.
- The demand space foundational framework will support the identification and prioritisation of growth opportunities which will uncover tangible avenues for industry stakeholders and Hort Innovation to drive ongoing campaign and product development strategies to **elevate demand for each category.**

# 3. Approach and Methodology

# Approach

## 1. Audit & Discovery

Project Kick Off  
Knowledge Audit  
Stakeholder Workshop

Outcomes from Phase 1:

- Clear understanding of key hypotheses and inputs into later stages of work and alignment on the knowledge gaps.

## 2. Localise & Enrich

Qualitative Online Community

Outcomes from Phase 2:

- In-depth market understanding of occasion-based needs, identifying drivers, barriers, gaps and unmet needs across the Australian market for fresh produce.
- Key inputs into the quantitative phase.

## 3. Develop Growth Plan

Quantitative Demand Space Modelling  
Quantitative Emotive Reasoning (NeedScope<sup>1</sup>)

Outcomes from Phase 3:

- Demand Space Model that maps all commodities, identifying 'Where-to-Play' and 'How-to Win'.
- NeedScope<sup>1</sup> framework that outlines the optimal emotive positioning for each commodity.

## 4. Align & Embed

Assimilation and Debrief Workshops:

- Debrief
- Where-to-Play and How-to-Win

Outcomes from Phase 4:

- Aligned Team trained, engaged and ready to activate clear missions & jobs to be done against prioritized horizons.
- A unified growth narrative tailored and fit for purpose for key stakeholder groups.

# Research Methodology

---

## Qualitative

---

- Online qualitative community
- Australia-wide with a cross-section of the general population
- N=40 consumers
- 5 x day moderated
- Members spent approximately 4-5 hours contributing daily to individual and group discussions, reacting to stimulus and building detailed response feedback
- Totalling over 1,000 hours of responses from community members

## Quantitative

---

### Demand Space Model

- N= 4,000, Australia wide, national representative sample
- 25 minute survey
- Category usage across fruit, veg and nuts
- Category usage across fruit, veg and nuts
- Primary or shared grocery buyer for household
- Asked about their own most recent consumption of two of the 31 commodities that they consume frequently

## 4. Context Impacting Consumer Choices

It is the purchasing moments that play the biggest role in fresh produce selection, rather than consumption moments.

Two key shifts in people's approach to food have impacted the role of fresh produce: **role of regionality and role of meals.**

# Shift 1: The role of regionality: from Australian to local

## From: Proudly purchasing Australian produce

- Supporting Aussie farmers has long been a driver of purchasing, along with Australian produce being seen to be of better quality
- Australian produce provides reassurance of quality controls, better growing conditions and health of food overall

## To: Proudly purchasing Local produce

- Supporting local farmers and areas, contributing to local communities and states. This is particularly prevalent in WA (Buy West, Eat Best campaign performing well).
- Moving more towards areas of regionality where certain produce shines (similar to wine) e.g. Riverina Apples

## Shift 2: The changing role of meals: Breakfast and Dinner play a bigger role

### From: Lunch punctuating the day

- Something that involved effort, either through planning and preparing something prior to leaving home or purchasing at work
- Provided people an opportunity to break up their day by stepping away from the workplace, particularly if going out to buy lunch
- Breakfast was often quick and on the go, dinner something low effort so lunch was more of a treat

### To: Breakfast and Dinner being the heroes

- Movement to working from home means people grab and go from whatever's in the fridge, rarely is lunch purchased
- Breakfast and dinner play a bigger role, more care and consideration goes into preparation as there is more time at the bookends of the work day

Early imprints of produce also play a critical role in how consumers approach fruits, vegetables and nuts.

# Childhood experiences and early imprints of food impact individual repertoire and engagement with fresh produce

What people were exposed to when they were young, in particular what fresh produce was used (and how) largely sets people up for how they use it as they get older.

People who've become more engaged with food and/or cooking tend to be the exception. They've made an effort to broaden their horizons, inspired by recipes or other experiences.

*“ This is food I grew up with, so have eaten it all my life. I suppose that’s why I eat more of these than of other vegetables. They’re my staples for roasts and just yummy.”*

Male, S/DINK

"I have vegetables that I buy and eat every week. They work well in most recipes and meals that I make, and there's some that are interchangeable, like sweet potato instead of potato so I know things will always turn out alright."

Female, S/DINK

## When selecting what to eat, people are limited by what's available to them, rarely do they seek out something specific

Few people are set on a particular piece of produce when they have a consumption moment, rather they choose what works for the moment that they're in based on what's readily available.

Ultimately, while the choice in the moment of consumption is important, the bigger decision comes in the purchase moment.

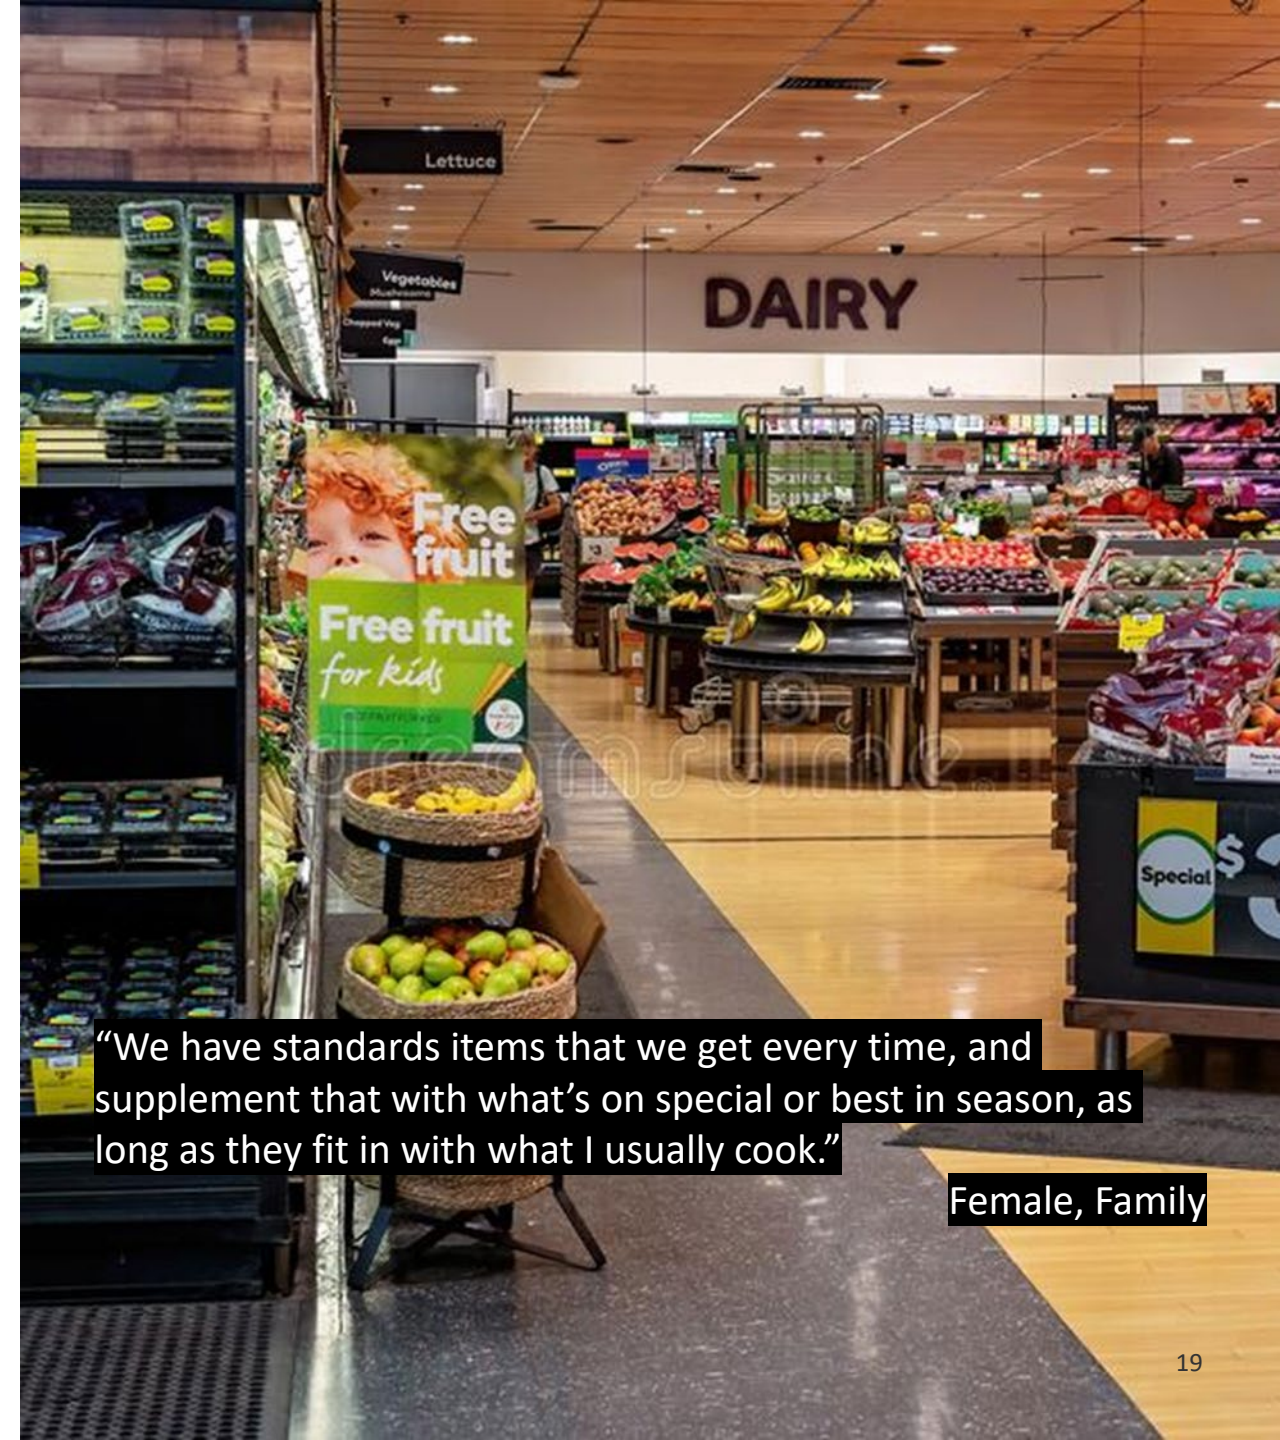

People tend to shop based on the type of meals they expect to have, with a healthy dose of flexibility.

**While people may not know exactly what they're going to purchase, they broadly know the types of produce they need or intend to buy.**

Most people are habitual in both their consumption and shopping choices, and therefore have a set repertoire based upon the type of meals they're going to have over the community days/week.

This allows them to then make a choice for the best value at the time.

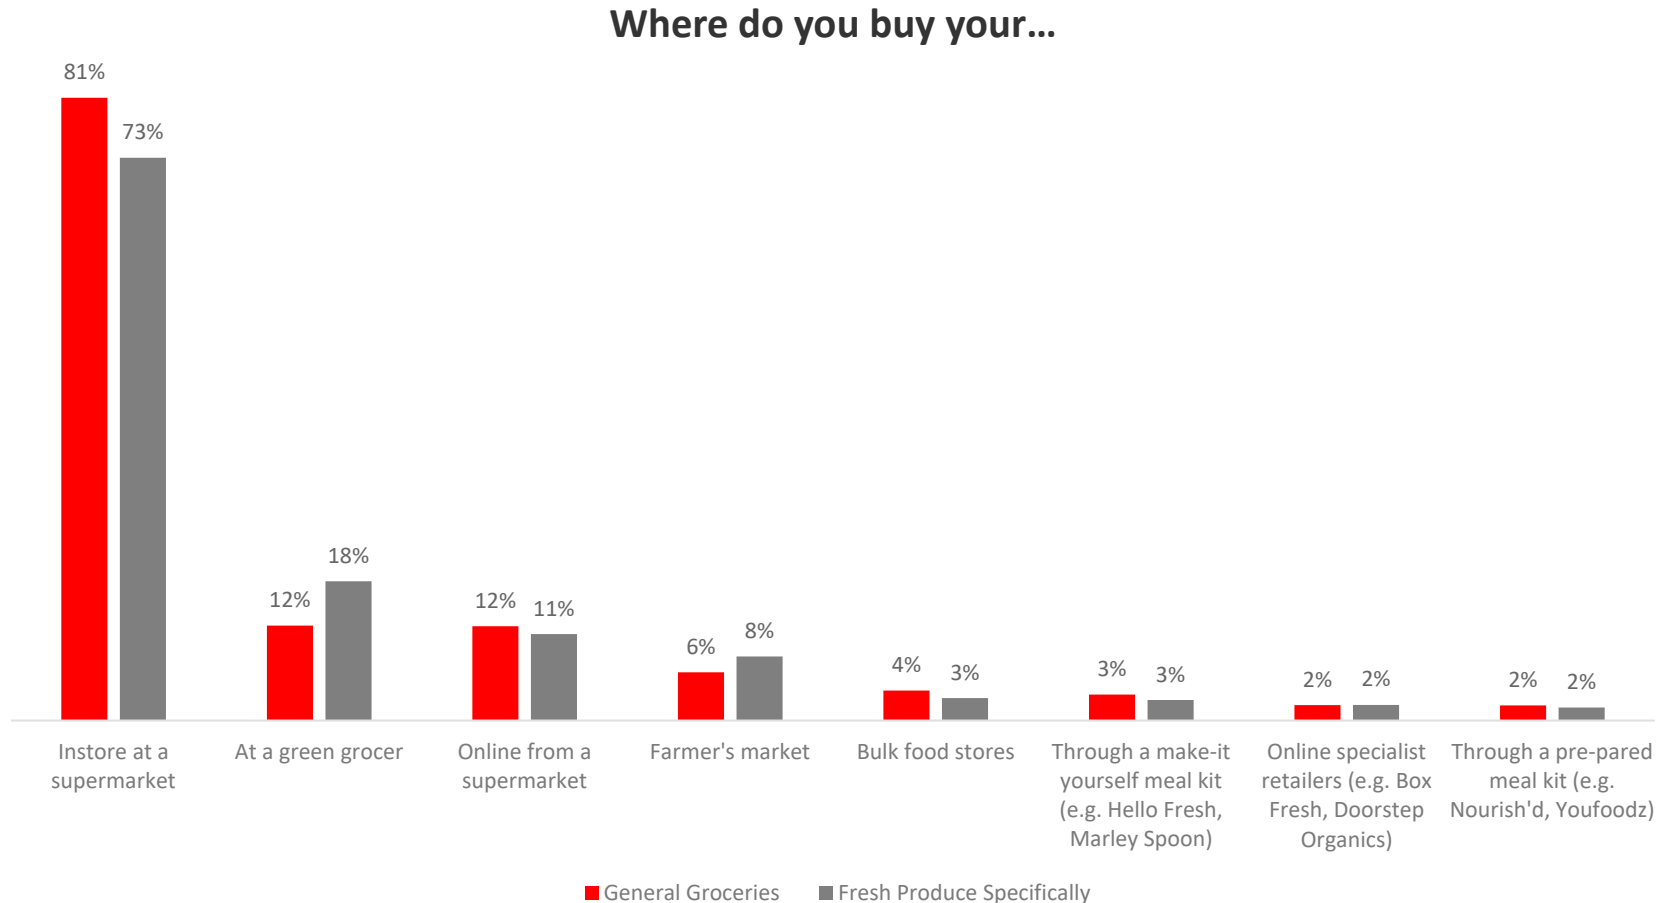

"We have standards items that we get every time, and supplement that with what's on special or best in season, as long as they fit in with what I usually cook."

Female, Family

# Groceries are overwhelmingly purchased in store at a supermarket

Nearly 1 in 5 consumers get fresh produce from a green grocer

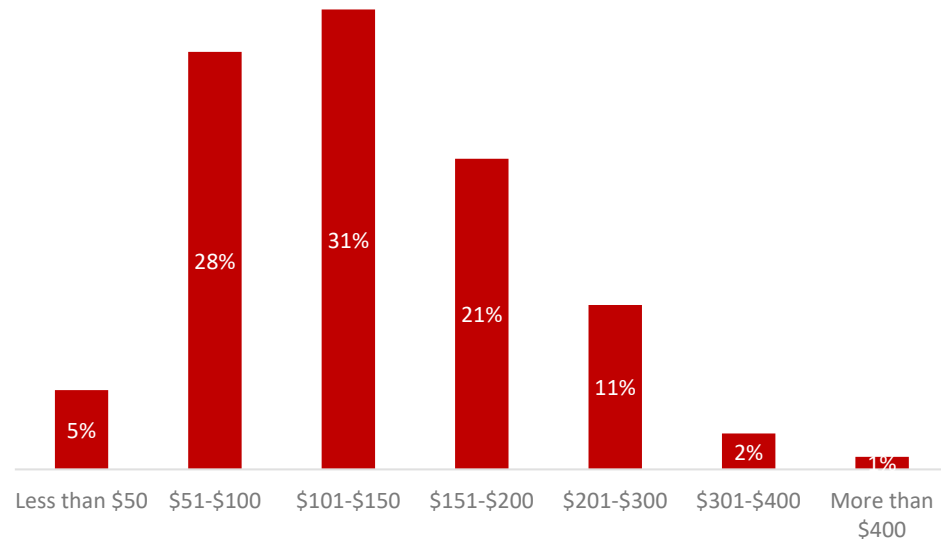

# Over half of consumers are spending between \$100-\$200 a week on groceries

Consumers estimate that about 35% of their weekly grocery bill is spent on produce

In a typical week, how much do you spend on groceries?

# 35%

Estimated share of grocery cost spent on fresh produce specifically in a typical week

# Consumers like to use a list, although they are open to spontaneous purchases

Attitudes towards new and different items differ across the consumer base

Which would you say describes your shop when shopping...

When shopping for fresh produce do you...

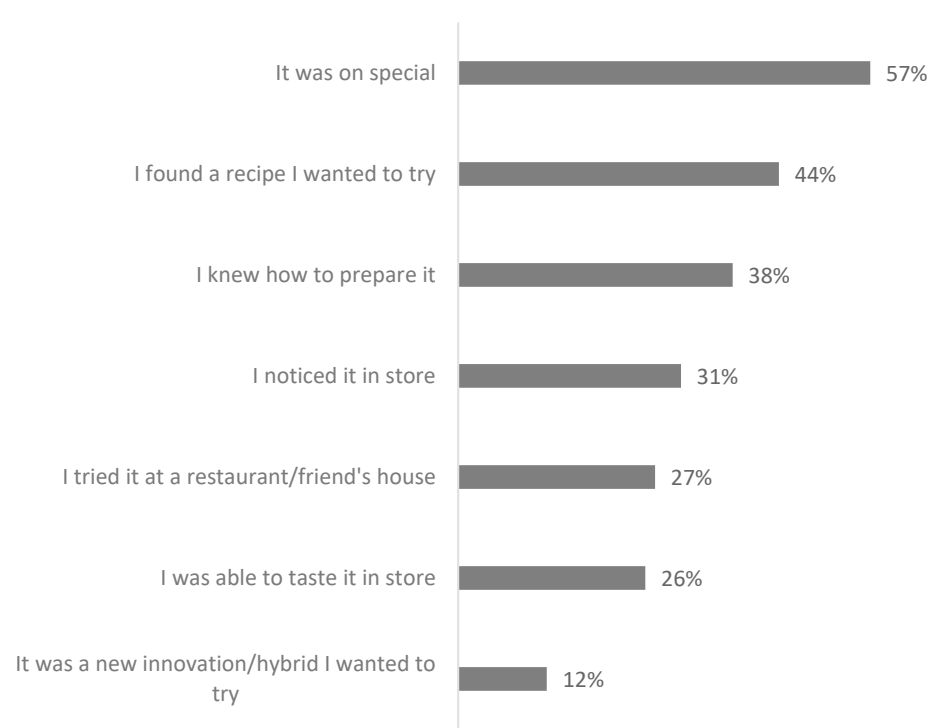

# Price aside, the biggest purchase drivers are Australian grown and in season

Consumers are hesitant to try new items without a recipe or knowledge of how to prepare it

When shopping for fresh produce what determines your choice?

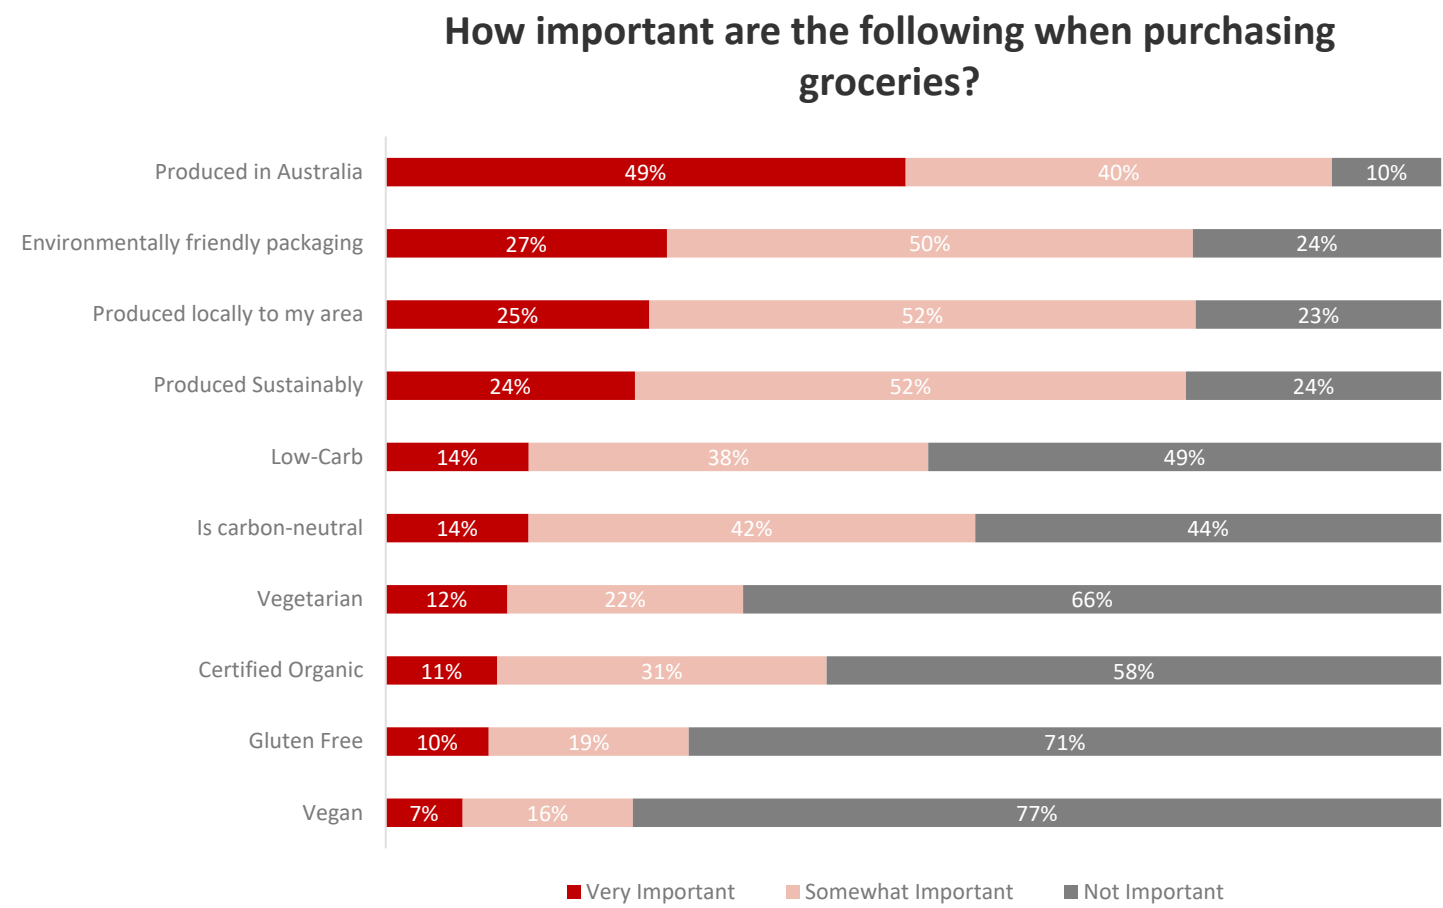

What would encourage you to purchase fresh produce you wouldn't normally buy?

# Locality and sustainability are what consumers are looking for from groceries

Dietary claims like Vegan and Gluten-free are less important to most consumers

# 5. Introducing the Demand Space Framework

# What can the Demand Space framework do?

Represent a total Australian market map of commodity consumption that shows where commodities are **strong today**, and could **grow in the future**.

## *Additionally:*

### **Diagnostics**

Understanding the consumption landscape of fresh produce, quantifying demand, and where some commodities have advantages over others.

Understanding drivers and barriers within key consumption territories.

### **Competitive Mapping**

Identify the distinct consumption territories that certain commodities can deliver against.

Map the commodities' performance compared to substitutes, and their relative performance.

### **Opportunity Identification**

Defining '**Where to Play**' - Identifying which consumption territories will unlock growth for certain commodities.

### **Activation Guidelines**

Guiding stakeholders on '**How to Win**', and what consumers are looking for in key consumption territories. Identify best in class commodities to understand why and how they are winning.

# How did we build it?

---

## Key Inputs

### What We Used...

- Commodity Consumption Frequency (Z6)
- Meal Occasion (C2)
- Occasion Needs (C8)

## Advanced Analysis

### What We Did...

- Principle Component Analysis
- Cluster Analysis
- Correspondence Mapping
- Qualitative Validation

## Key Outputs

### What We Got...

- 6 Needs Pillars
- 5 Meal Occasions

**Demand  
Space  
Framework**

We have identified **6 needs pillars**, born of unchanging consumer needs that drive consumption choices of fresh produce

**Tasty**

*All about:* Taste,  
Refreshment, and  
Enjoyment

**Quick & Easy**

*All about:* Convenience  
Simplicity, and Ease

**Healthy &  
Nutritious**

*All about:* Guilt-free,  
Nourishing and Sensible

**Indulgence**

*All about:* Comfort,  
Relaxation and Self Care

**Physical & Mental  
Energy**

*All about:* Energy, Uplift,  
and Reinvigoration

**Connection**

*All about:* Bonding,  
Celebration and  
Creating Memories

## Needs Pillars

In over half of all fresh produce occasions consumers are in search of something ***Tasty*** and ***Quick & Easy***

N=4,002

Question: How important were each of the following when you chose to consume *commodity name* at *occasion* time?

Additional detail in Appendix B

Source: Kantar HIA Domestic Growth Study 2022

# The **6 needs pillars** form the first of two dimensions that make up our Demand Space framework

**Tasty**

*All about:* Taste, Refreshment, and Enjoyment

**Quick & Easy**

*All about:* Convenience, Simplicity, and Ease

**Healthy & Nutritious**

*All about:* Guilt-free, Nourishing and Sensible

**Indulgence**

*All about:* Comfort, Relaxation and Self Care

**Physical & Mental Energy**

*All about:* Energy, Uplift, and Reinvigoration

**Connection**

*All about:* Bonding, Celebration and Creating Memories

The meal occasion has the biggest influence on commodity choice, making it a natural second dimension of the Demand Space framework

**Breakfast**

*Morning meal*

**Lunch**

*Mid-day meal*

**Dinner**

*Evening meal*

**Dessert**

*Post-dinner*

**Snacks**

*Between meals*

# Mango by consumption occasion

Snack Occasions are 43% of Mango occasions, which is a slight under-representation vs 49% for All Fruit. Dessert is 20% of all Mango occasions, an over-representation vs 14% for All Fruit.

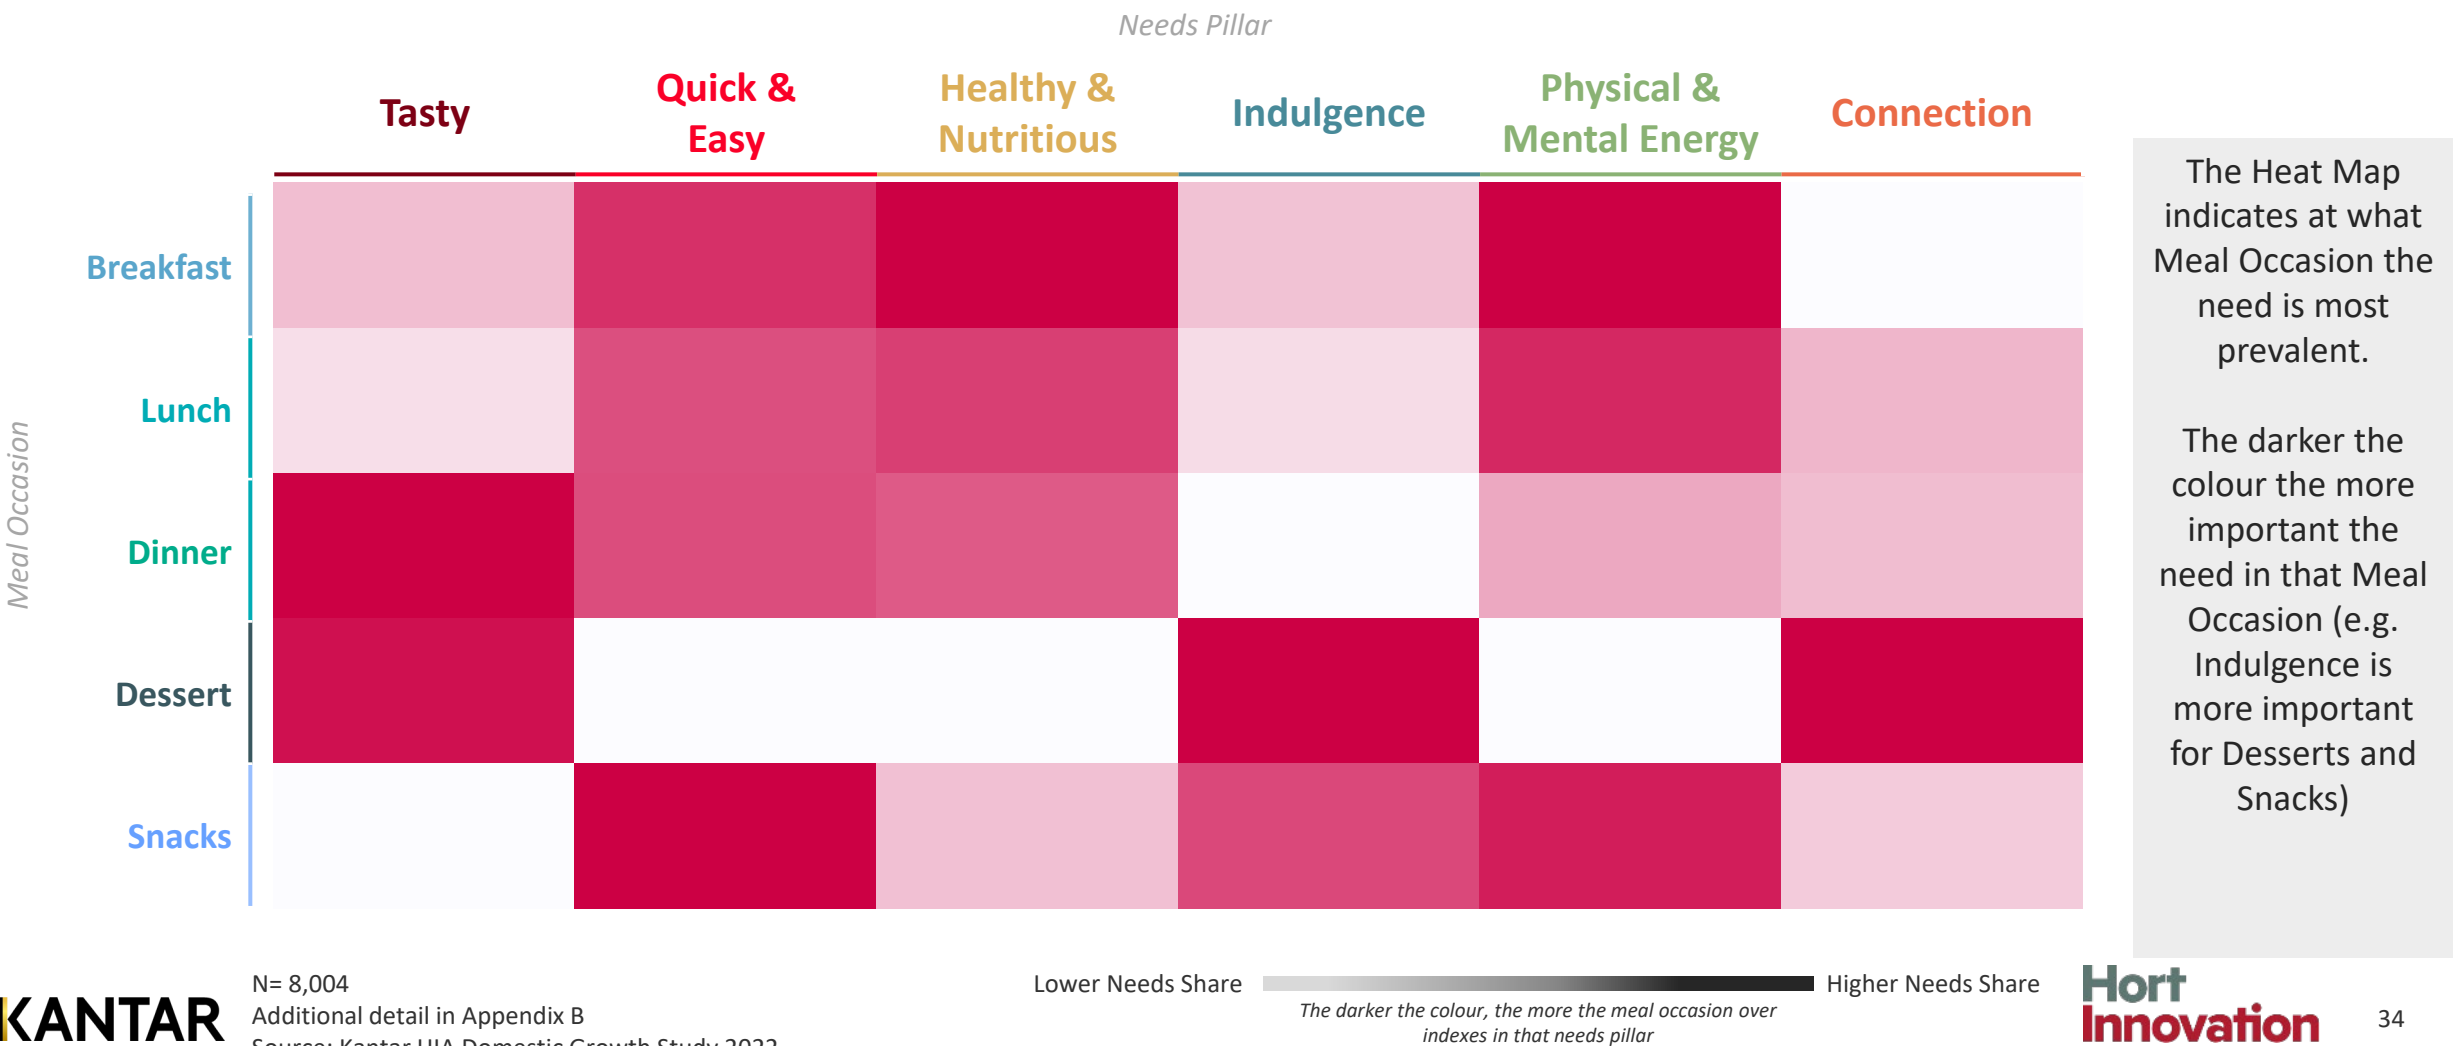

# Demand Space Framework

		Needs Pillar					
		Tasty	Quick & Easy	Healthy & Nutritious	Indulgence	Physical & Mental Energy	Connection
Meal Occasion	Breakfast						
	Lunch						
	Dinner						
	Dessert						
	Snacks						

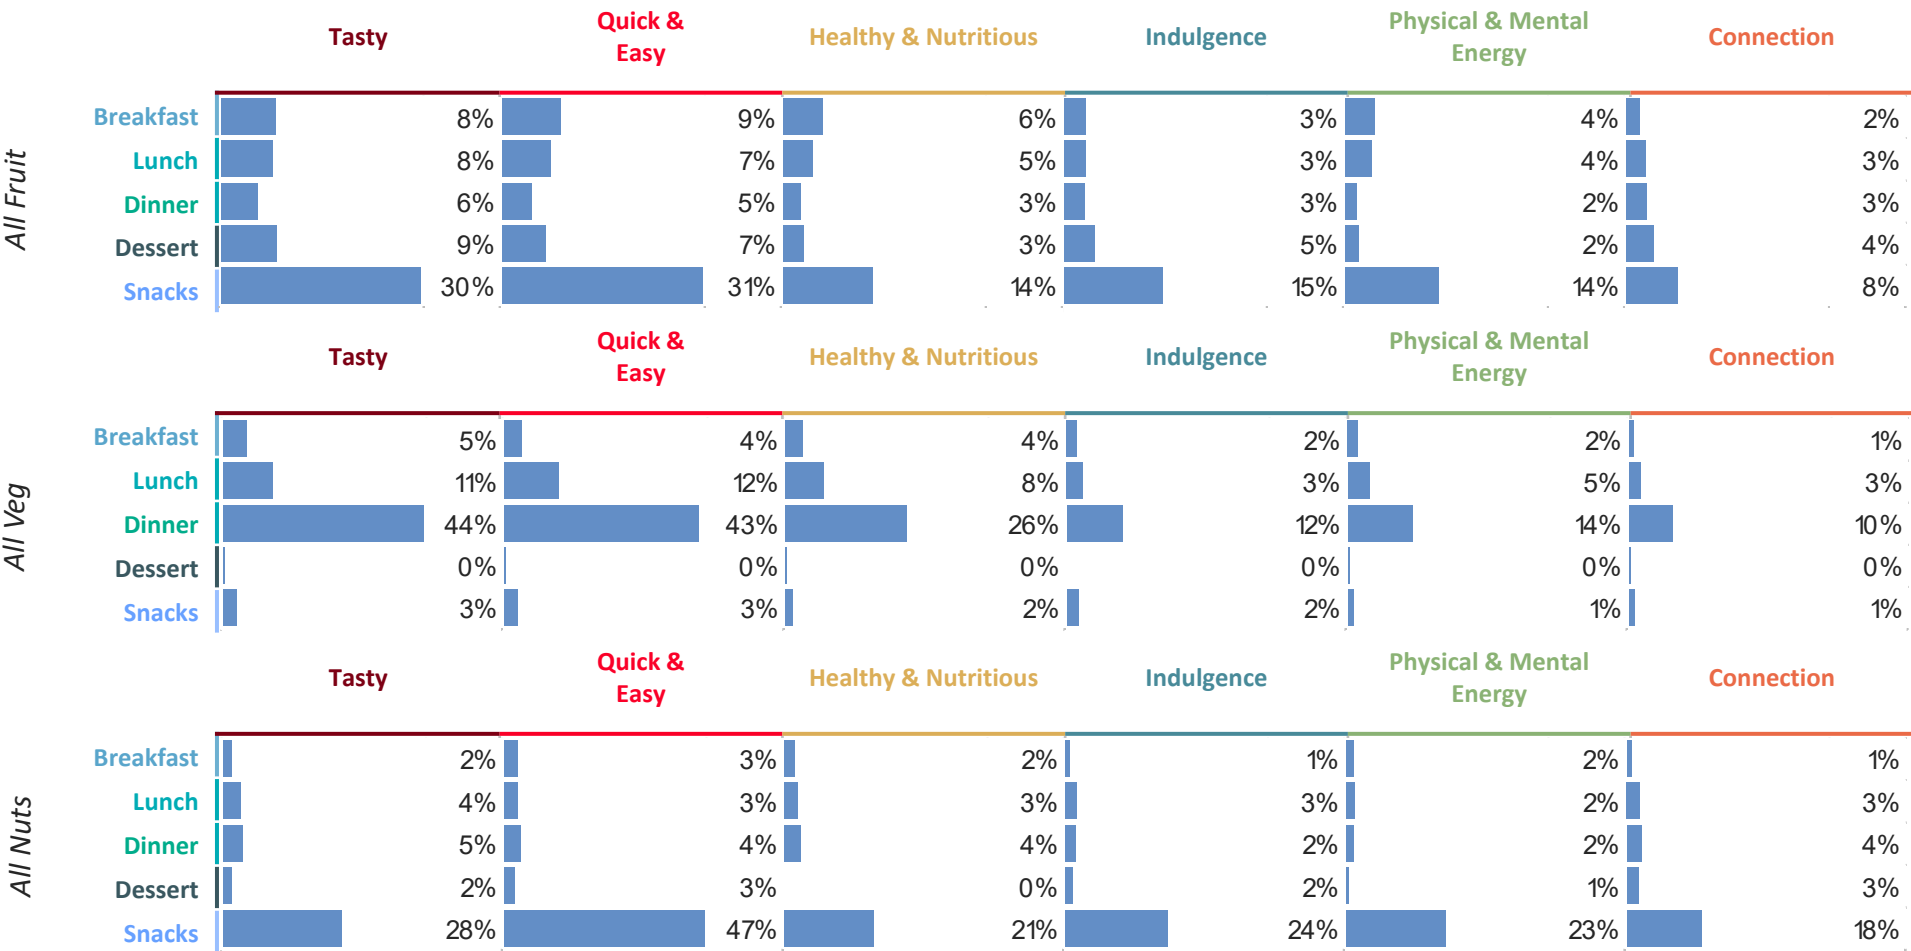

# The Needs Pillars vary in importance across Meal Occasions

# Demand Space Framework

The Demand Space framework provides a map of the landscape through which we can understand the role commodities plays now and into the future

Fruits today are showing up strongly in the Snacking space, particularly meeting the needs of Tasty and Quick & Easy

Veg today plays primarily in the Dinner space meeting the primary needs of taste and convenience while being Healthy & Nutritious

Nuts play today firmly in the Snacking space and are Quick & Easy, Indulgent and Energising

## 6. Mango Deep Dive

## Commodities In Scope

This study covers 31 commodities that can be mapped on the Demand Space framework to identify current and future opportunities

Apple

Almond

Avocado

Banana

Berries

Broccoli/ini

Cherry

Chestnut

Citrus

Custard  
Apple

Dried Fruit

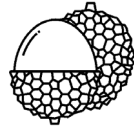

Fruiting  
Vegetables

Hard  
Vegetables

Leafy  
Vegetables

Lychees

Macadamia

Mango

Melon

Mushroom

Nashi

Olives

Onions

Papaya

Passionfruit

Pear

Persimmon

Pineapple

Potatoes

Summer  
Fruit

Sweet  
Potatoes

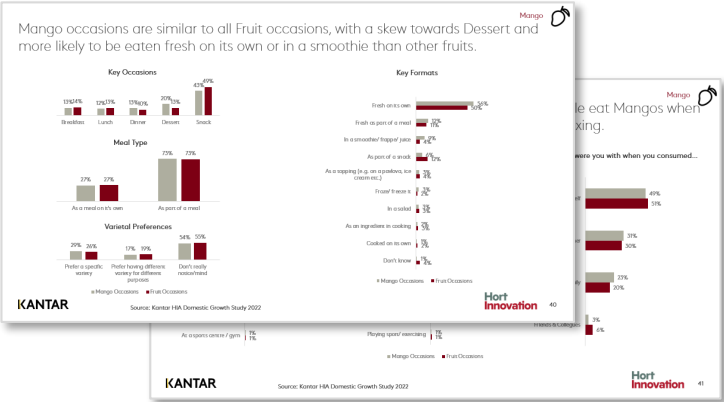

Table Grapes

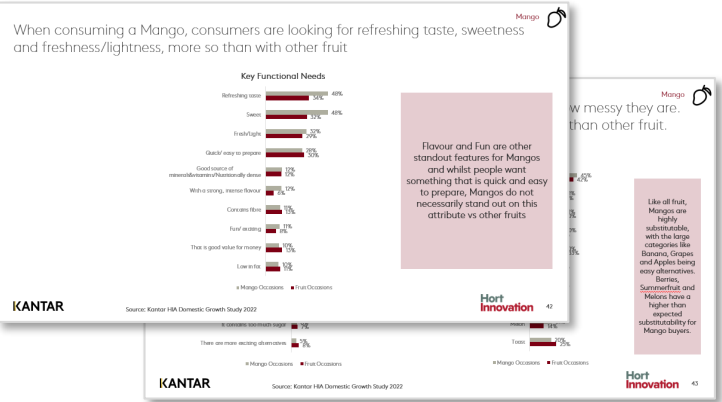

Content for Each Commodity

What’s included for each commodity?

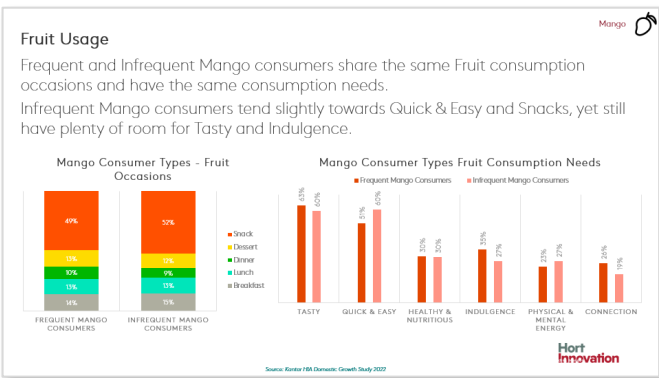

Commodity Occasions

Drivers/Barriers/Substitutes

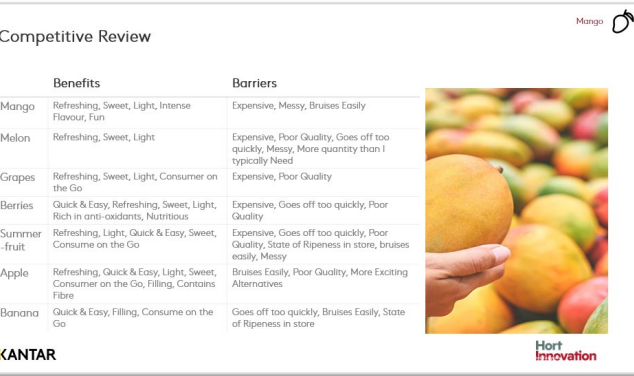

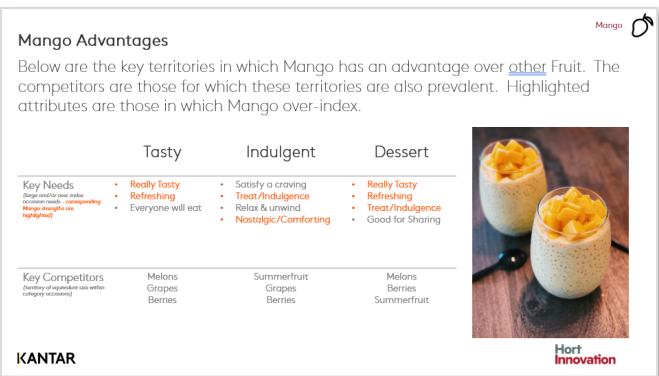

Light v Heavy Consumers

Where to Play

How to Win

# Mango

---

Mango occasions are similar to all Fruit occasions, with a skew towards Dessert and more likely to be eaten fresh on its own or in a smoothie than other fruits.

When did you consume...

Did you consume it...

When you typically buy or eat mangoes do you prefer a specific variety?

How did you eat...

Fruit is mostly consumed at Home, Mangoes even more so. People eat Mangos when they're having a meal or during downtime like watching TV or relaxing.

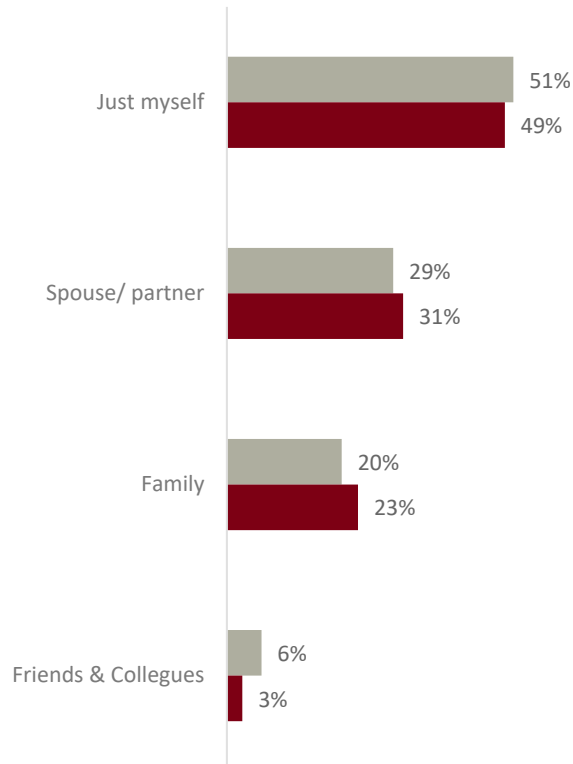

Where did you consume...

What were you doing when you consumed...

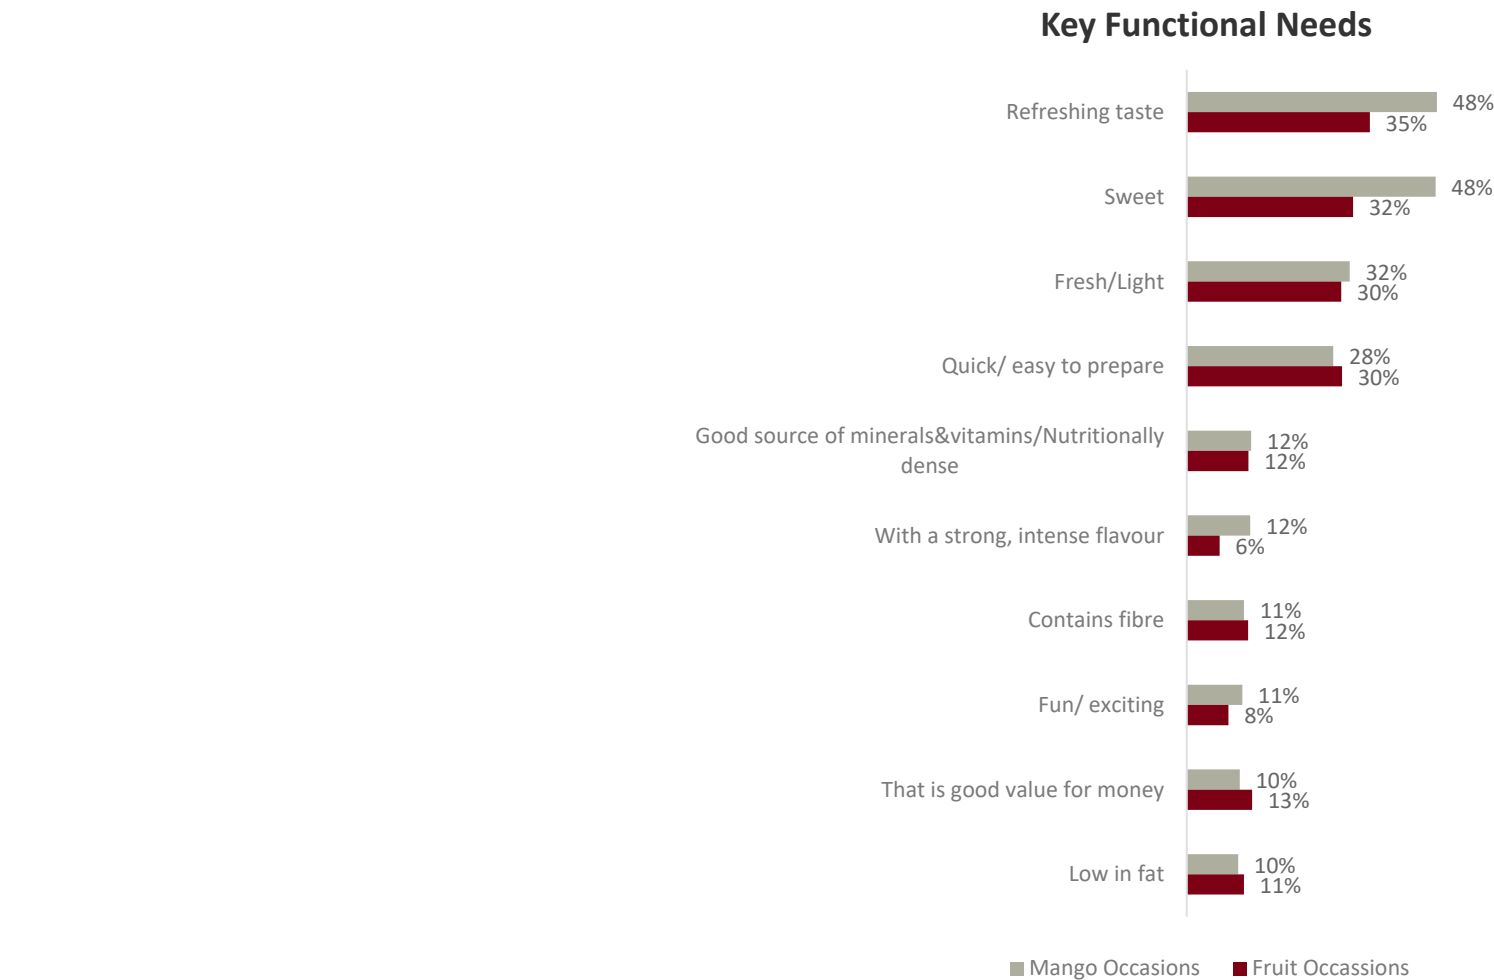

Who were you with when you consumed...

■ Mango Occasions ■ Fruit Occasions

When consuming a Mango, consumers are looking for refreshing taste, sweetness and freshness/lightness, more so than with other fruit

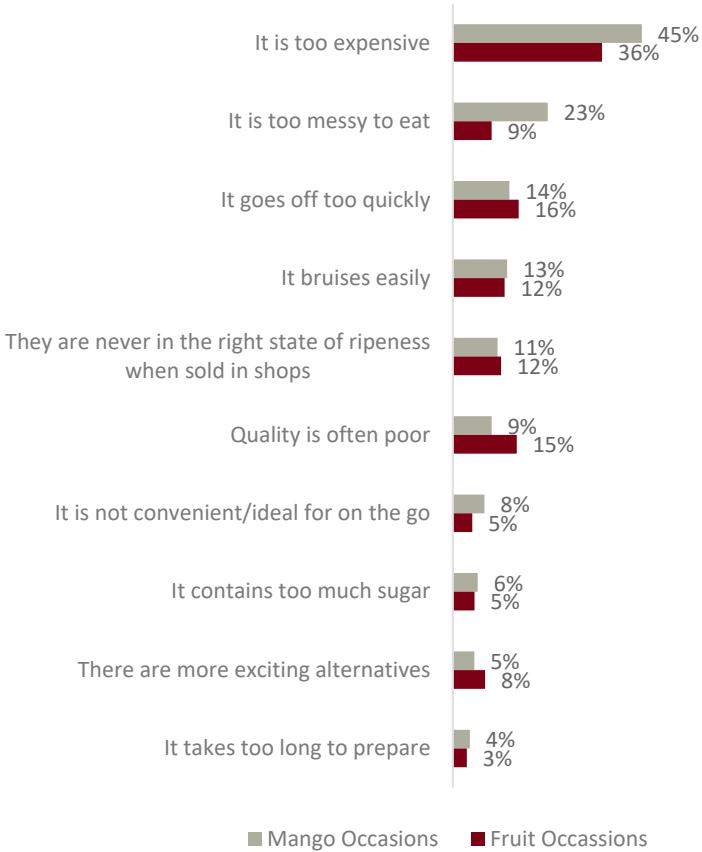

Flavour and Fun are other standout features for Mangos and whilst people want something that is quick and easy to prepare, Mangos do not necessarily stand out on this attribute vs other fruits

The most significant barriers for Mango purchase are cost and how messy they are. They are also challenged by ripeness and quality, but no more so than other fruit.

Key Barriers

Key Substitutes

Like all fruit, Mangos are highly substitutable, with the large categories like Banana, Grapes and Apples being easy alternatives. Berries, Summerfruit and Melons have a higher than expected substitutability for Mango buyers.

# Mango Usage

Frequent and Infrequent Mango consumers share the same Fruit consumption occasions and have the same consumption needs.

Infrequent Mango consumers tend slightly towards Quick & Easy and Snacks, yet still have plenty of room for Tasty and Indulgence.

Mango have a strong advantage as a Tasty and Convenient Dessert compared to other fruit

The % shows the relative size of Mangoes in that territory

Green shading shows territories where Mangoes has an advantage<sup>1</sup> over other fruits

Red shading shows territories where Mangoes has a disadvantage compared to other fruits

# Mango Advantages

Below are the key territories in which Mango has an advantage over other Fruit. The competitors are those for which these territories are also prevalent. Highlighted attributes are those in which Mango over-index.

	Tasty	Indulgent	Dessert
<b>Key Needs</b> <i>(large and/or over-index occasion needs - corresponding Mango strengths are highlighted)</i>	<ul style="list-style-type: none"> <li>Really Tasty</li> <li>Refreshing</li> <li>Everyone will eat</li> </ul>	<ul style="list-style-type: none"> <li>Satisfy a craving</li> <li>Treat/Indulgence</li> <li>Relax &amp; unwind</li> <li>Nostalgic/Comforting</li> </ul>	<ul style="list-style-type: none"> <li>Really Tasty</li> <li>Refreshing</li> <li>Treat/Indulgence</li> <li>Good for Sharing</li> </ul>
<b>Key Competitors</b> <i>(territory of equivalent size within category occasions)</i>	Melons Grapes Berries	Summerfruit Grapes Berries	Melons Berries Summerfruit

# Competitive Review

	Benefits	Barriers
Mango	Refreshing, Sweet, Light, Intense Flavour, Fun	Expensive, Messy, Bruises Easily
Melon	Refreshing, Sweet, Light	Expensive, Poor Quality, Goes off too quickly, Messy, More quantity than I typically Need
Grapes	Refreshing, Sweet, Light, Consumer on the Go	Expensive, Poor Quality
Berries	Quick & Easy, Refreshing, Sweet, Light, Rich in anti-oxidants, Nutritious	Expensive, Goes off too quickly, Poor Quality
Summer-fruit	Refreshing, Light, Quick & Easy, Sweet, Consume on the Go	Expensive, Goes off too quickly, Poor Quality, State of Ripeness in store, bruises easily, Messy
Apple	Refreshing, Quick & Easy, Light, Sweet, Consumer on the Go, Filling, Contains Fibre	Bruises Easily, Poor Quality, More Exciting Alternatives
Banana	Quick & Easy, Filling, Consume on the Go	Goes off too quickly, Bruises Easily, State of Ripeness in store

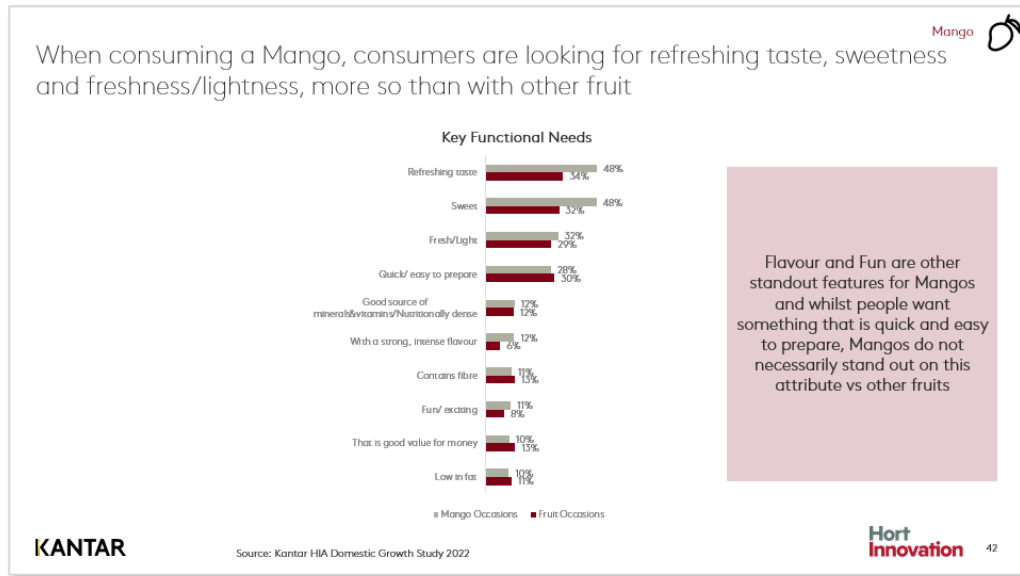

## 6. Appendix A: How to use this report

## How to use this report

### Slide 43: Category Drivers

### How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They selected the top 3-5 reasons that they chose to consume the commodity.

### How to read the data

The charts provide the % who selected each reason for choosing the commodity. The higher and lower than average bars indicate higher and lower % scores for the commodity vs. the average of all fruit.

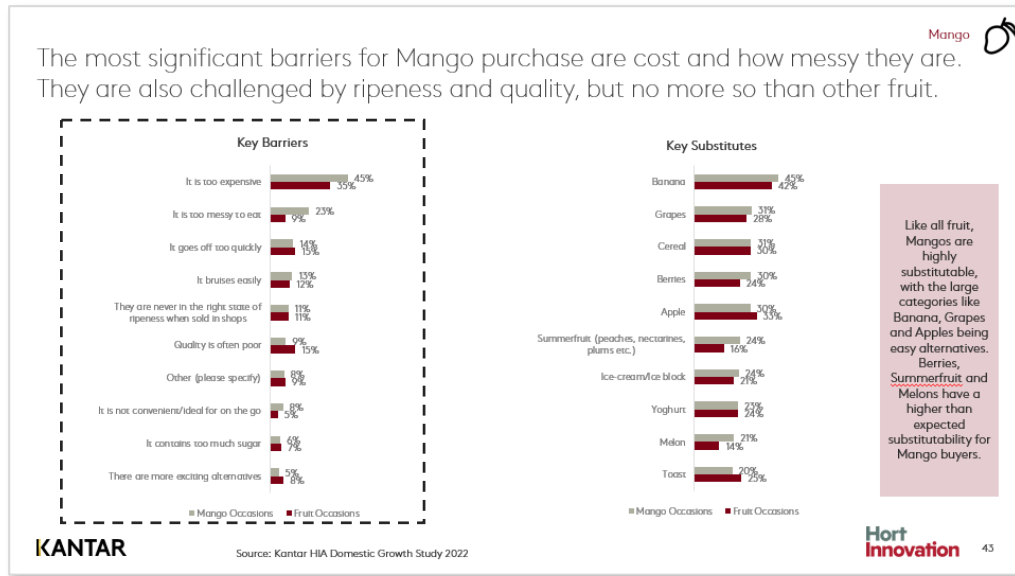

### How to use the data

Attributes that have high scores are the most important reasons that people choose the commodity. Attributes that are higher than average are strengths for the commodity vs other fruit sub categories.

## How to use this report

### Slide 44: Category Barriers

### How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They were asked to select all the reasons they may not choose the commodity in that same occasion.

### How to read the data

The charts provide the % who selected each reason they may not choose the commodity. The higher and lower than average bars indicate higher and lower % scores for the commodity vs. the average of all fruit.

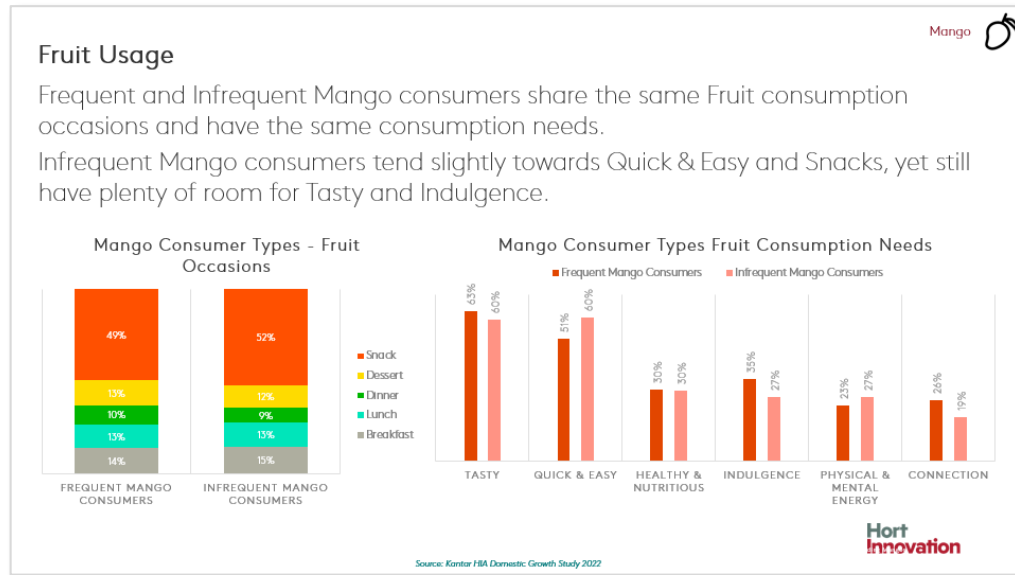

### How to use the data

Attributes that have high scores are the most important reasons that people don't choose the commodity. Attributes that are higher than average are bigger barriers for the commodity than for other fruit. Attributes that are lower than average are smaller barriers for the commodity than other fruit.

# How to use this report

### Slide 45: Light v Heavy Users

### How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They were asked to select all the reasons they may not choose the commodity in that same occasion.

### How to read the data

The charts provide when consumers last ate the commodity and the % who selected each reason for choosing the commodity.

The charts show light users vs heavy user. Heavy users eat the commodity at least once a fortnight. Light users eat the commodity once a month or less.

### How to use the data

Attributes that have high scores are the most important reasons that people choose the commodity.

How to use this report

Slide 46: Category Territories

How we ask the question

Respondents who have consumed the commodity in the last 4 weeks are asked to describe the last occasion on which they consumed the commodity. They selected the top 3-5 reasons that they chose to consume the commodity. Using an understanding of their occasion and their needs, we map the commodities ‘territories’ against the Horticulture Demand Framework.

How to read the data

This provides the % of all the commodity’s needs and occasions. As respondents had an average 2.2 needs for every occasion, the numbers add up to more than 100%. The green and red bars indicate respectively higher and lower %’s for the commodity compared to the average of all fruit.

How to use the data

High %’s are the largest demand territories for the commodity. Territories that are higher than average are strengths for the commodity vs other fruit sub categories. Territories that are lower than average are weaknesses for the commodity vs other fruit sub categories.

## 6. Appendix B: Needs Pillar Detail

# Tasty

---

*We all have to eat, right? But if I'm going to really satisfy my hunger I need something that is super tasty, that tantalizes my tastebuds and stimulates all my senses.*

*Food should always be satisfying with a refreshing buzz that even the pickiest of eaters in the household will eat!*

*Tasty*

Needs to deliver...

**A refreshing sensory experience that promises delicious and consistent tastes that everyone loves**

### **Really Tasty**

*Produce that provides a great sensory experience*

### **Refreshing**

*Produce that refreshes the palate*

### **Everyone will eat it**

*Produce that I know everyone in my house will like and eat*

## What?

Food is seen as a pleasure rather than a fuel

## When?

Table stakes for all meal occasions – heightened for weekend dinners

## With whom?

Typically with partner & family

# Quick & Easy

---

*We're about to head out and we need a snack that we can eat while we're on the go – it's been a busy day so it's going to have to be something we already have in the fruit bowl.*

*I'm getting hungry and thinking about dinner but I can't be bothered to cook. I need something that is quick & easy, that I've made a million times and that doesn't require much thought – I'm thinking omelettes!*

*Quick & Easy*

Needs to deliver...

**A convenient experience that doesn't require much thought or preparation and good to go**

**Quick  
& Easy**

*Produce that requires  
little to no preparation*

**Doesn't require  
much thought**

*Produce I know what to do  
with*

**Can consume  
on the go**

*Produce that is good for  
eating on the go*

**Already had it  
available**

*Produce that is readily  
available at home/work*

### What?

I'm not in the mood to cook  
and often eat the same  
thing out of habit

### When?

Most important for those  
snacking moments – and  
also weekday dinners

### With whom?

Typically  
on my own

# Healthy & Nutritious

A hand is pouring a vibrant green smoothie from a glass jar into a clear glass. Another glass filled with the same smoothie is visible in the background. The scene is set on a light-colored surface with a soft, natural light background.

---

*Your health is your wealth and so I really try and focus on making sure I cram my body full of all the goodness it needs with three healthy meals a day.*

*I make sure to be careful with what I eat during the week ensuring I meet certain macro nutritional goals to help maintain my weight as I get older. This also means I can indulge a little on the weekend and not feel guilty about it!*

*Healthy & Nutritious*  
Needs to deliver...

# A guilt-free experience that provides me all the goodness my body needs

## Nutrition my mind/body needs

*Produce that provides the nutrition my body needs to thrive*

## Guilt-free

*Produce that I don't have to feel guilty about eating*

## Weight management

*Produce that helps me manage my weight*

## Nutritional goals

*Produce that helps me meet my macro/nutritional goals*

## Healthy & Nutritious

**What are you looking for?**

---

I prefer to eat more  
vegetables & less meat

---

**When?**

---

Most important for main  
meals – particularly during  
the work week

---

**With whom?**

---

Typically  
on my own

---

# Indulgence

---

*Food can be such a pleasure and life is for enjoying! When you've had a long week there is nothing better than making a dish close to your heart whether that's my grandma's apple pie or my partner's favourite pasta.*

*It's a moment to treat yourself and unwind from the week. And when you are craving something close to your heart nothing else quite hits the spot!*

## *Indulgence*

Needs to deliver...

# An indulgent experience that provides me with a moment of pure pleasure and comfort

**Treat myself  
or others**

*Produce that feels like an  
indulgence*

**Satisfy  
a craving**

*Produce that satisfies what  
my body is craving*

**Relax &  
Unwind**

*Produce that helps me  
relax and unwind*

**Comforting**

*Produce that provides  
comfort or is nostalgic*

# Indulgence

## What?

I'm happy to pay a premium for quality food in this moment

## When?

Most prevalent when eating dessert & snacking

## With whom?

Can be either on my own or with family and friends

# Physical & Mental Energy

---

*I make sure to start my day with a breakfast that will provide me with long sustaining energy to see me through my busy day at work.*

*By mid afternoon my motivation is dwindling. My stomach is rumbling and I am craving a snack. I need something that will satisfy my hunger and give me that burst of energy to make it through the rest of my work day.*

*Physical & Mental Energy*

Needs to deliver...

# An reinvigorating experience that fuels my body and provides me with the energy I need

**Quick energy  
boost**

*Produce that provides an  
immediate burst of energy*

**Long lasting  
energy**

*Produce that gives me a  
sustained energy boost*

**Stops  
hunger**

*Produce that stops me  
feeling hungry*

# Physical & Mental Energy

What?

In this moment, food is a fuel more than a pleasure

When?

Breakfasts, snacks and sometimes lunch – particularly during the week

With whom?

Most commonly on my own

# Connection

---

*Is there anything better than connecting over a meal with the ones you love? Food has such a great way of bringing people together.*

*I love the festive season for exactly this reason! Some of my favourite foods come into season and I get to enjoy and explore new and different flavours that we don't usually eat in our regular meals*

## Connection

Needs to deliver...

# A unifying experience that creates a special moment with something a bit different

**Good for sharing**

*Produce that is good for a crowd*

**Create a special moment**

*Produce that makes a moment more special*

**Festive**

*Produce that is celebratory of the moment*

**New & different**

*Produce that provides new or different tastes and flavours*

## Connection

### What?

---

In this moment I enjoy  
trying new tastes &  
cuisines

---

### When?

---

Desserts and weekend  
dinners

---

### With whom?

---

Family & friends

---

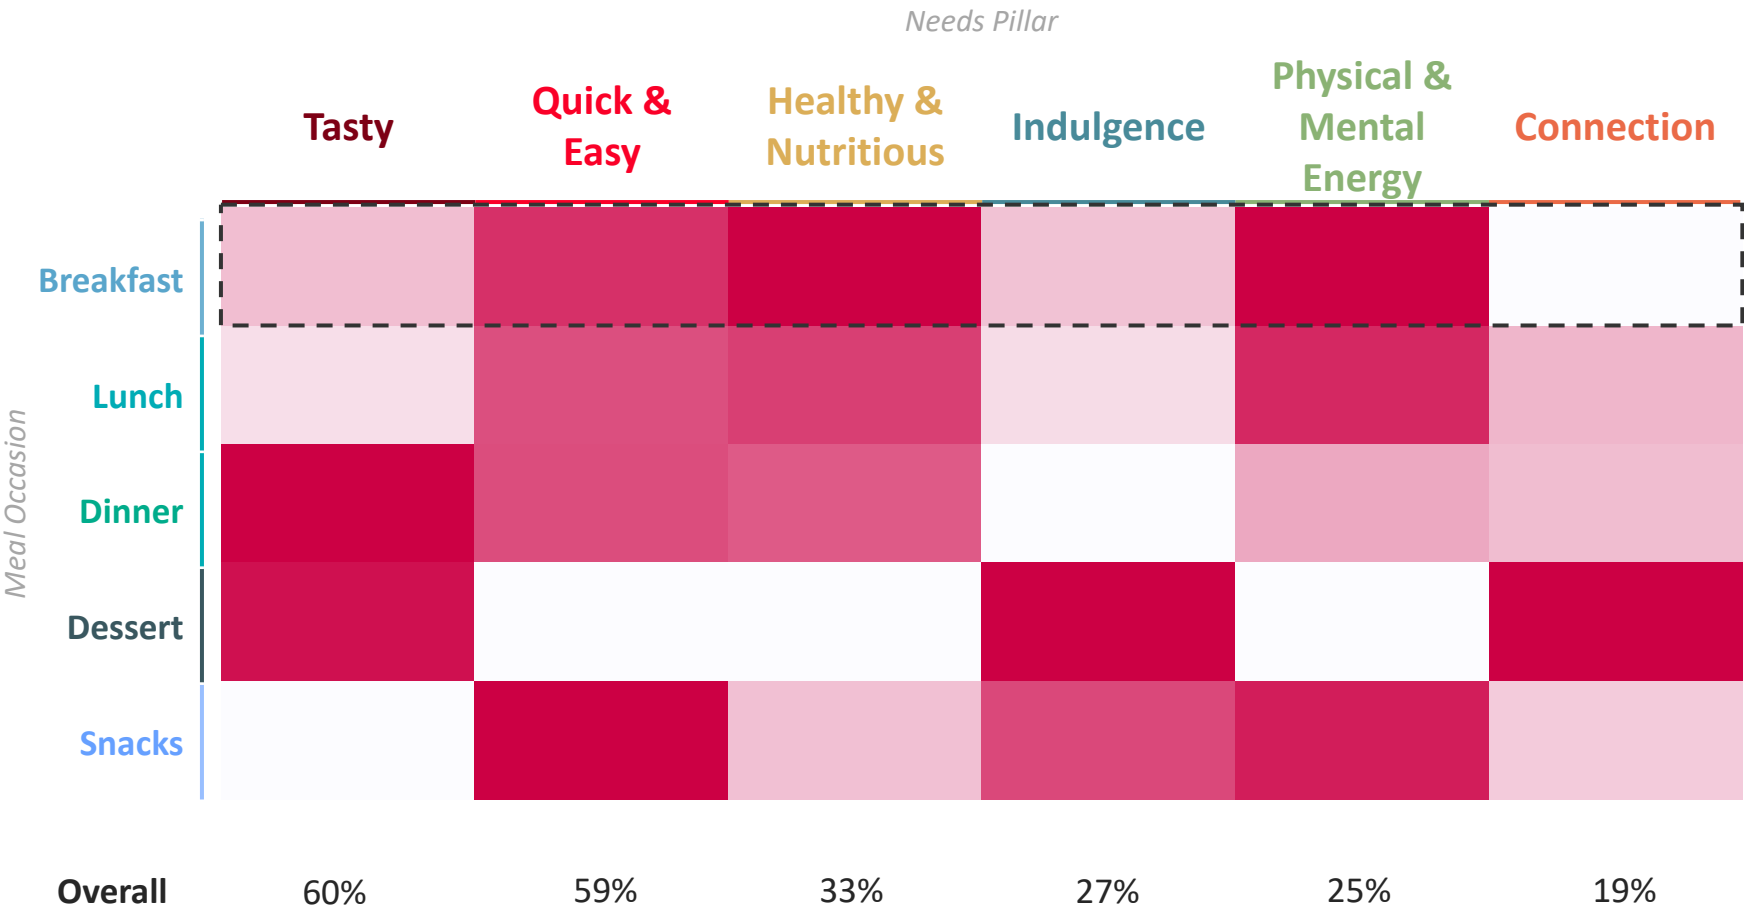

## 6. Appendix C: Demand Space Detail

# At Breakfast time *Needs* skew towards *Convenience* and *Health*

 **What it is**

Breakfast is all about Health, Convenience & Energy

 **What it isn't**

At Breakfast time people are not typically looking for Connection or Indulgence

# Lunch is about being sensible – *Energy, Health and Convenience* trump

## ✓ What it is

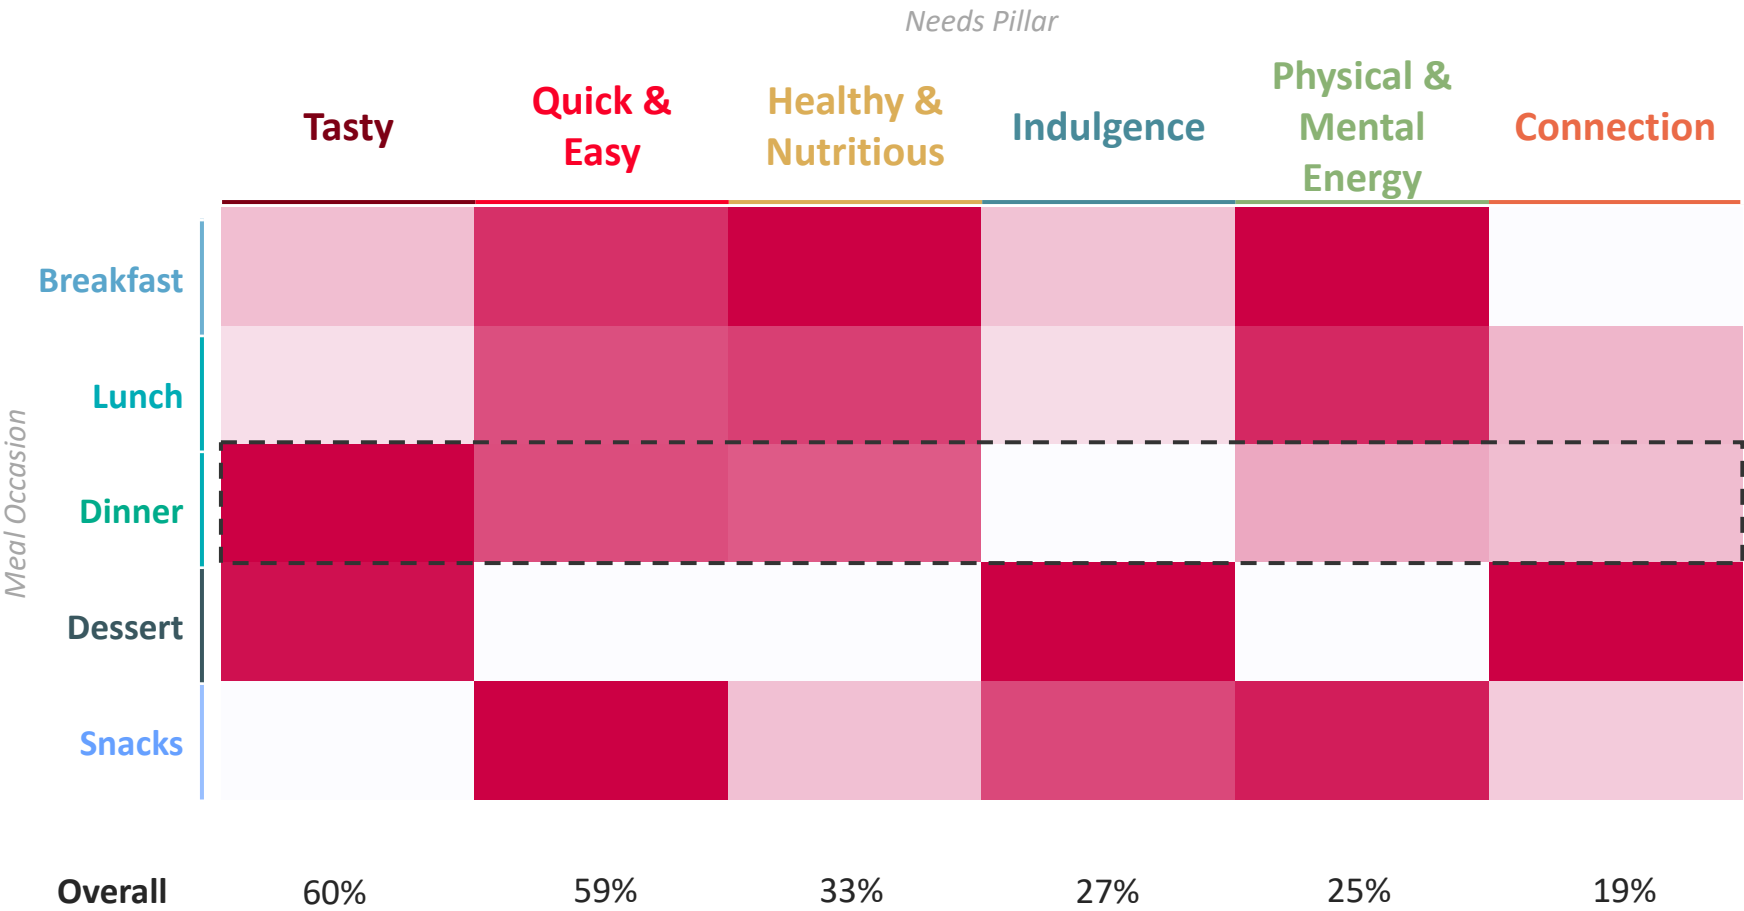

Lunch needs to be Quick & Easy and a Nutritious moment

## ✗ What it isn't

Lunch is less about Connection and not typically Indulgent

# Dinner needs to be liked by everyone in the household

✓ What it is

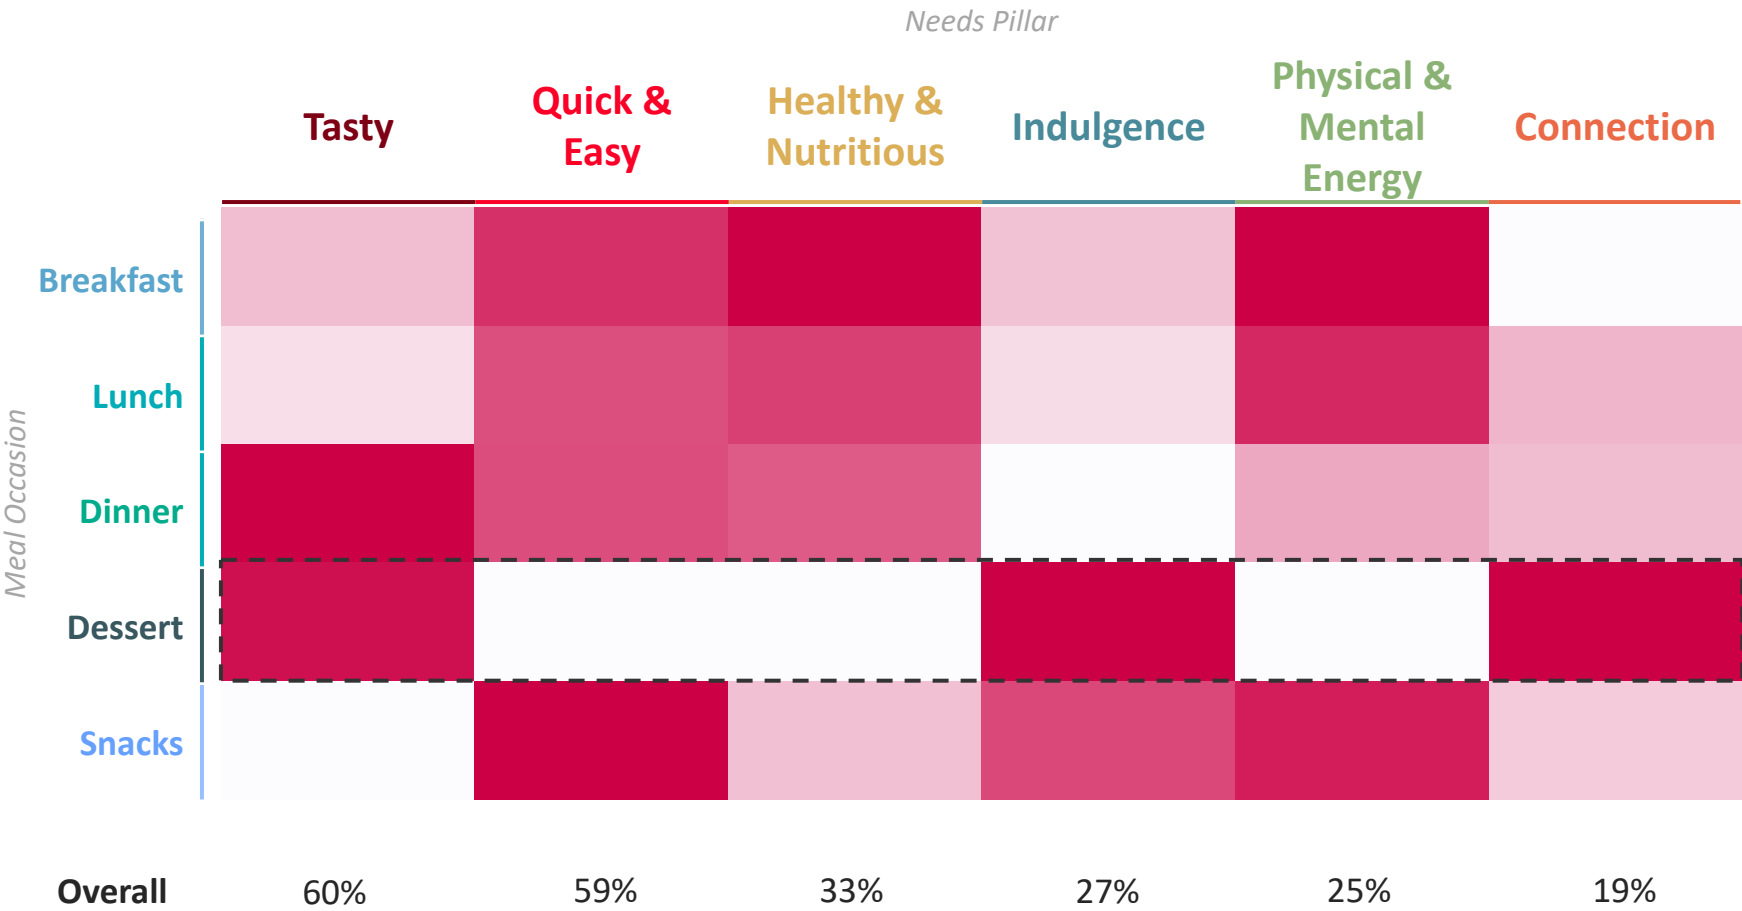

Dinner needs to be Tasty and Something Everyone Will Like that Doesn't Take too long to Prepare

✗ What it isn't

It's the end of the day and I'm not looking for an Energy Boost from Dinner

# Dessert is all about *Connecting* and *Indulging*

 **What it is**

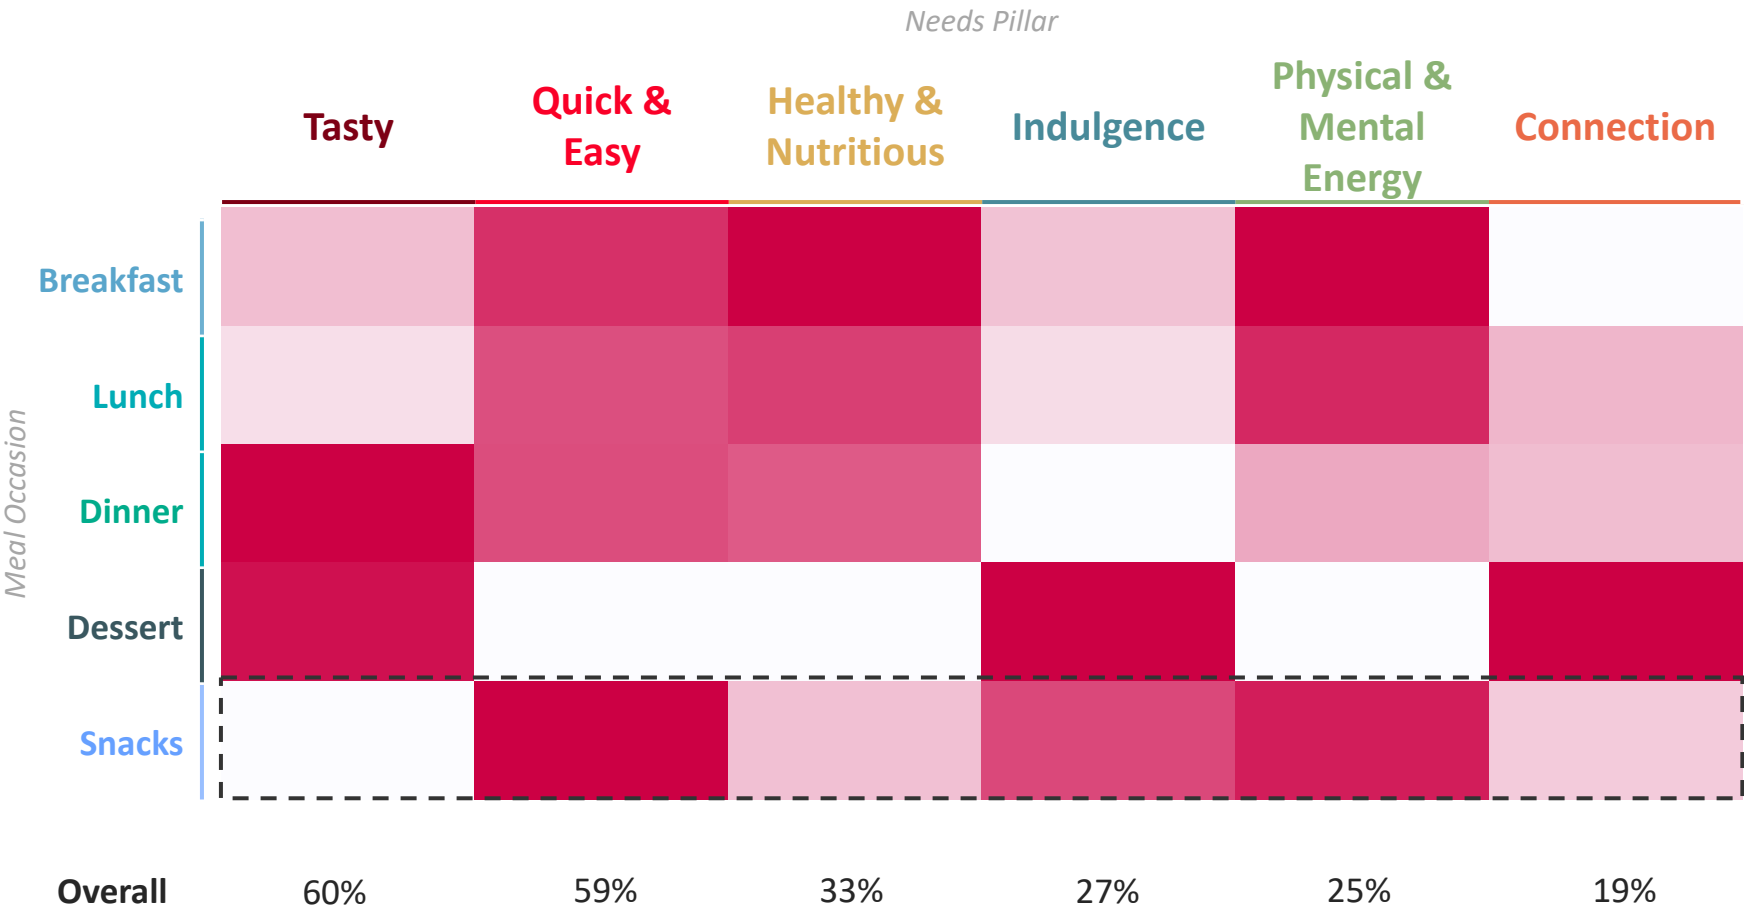

Dessert is a moment for true Indulgence & Connection with those around me

 **What it isn't**

I don't mind if Dessert takes a little more Effort and I'm not thinking too much about Nutrition

# Snacks need a feeling of *Indulgence* while being *Quick & Easy*

## What it is

Convenience is king here. I'm looking for Energy & a small feeling of Indulgence from my snacks

## What it isn't

I'm generally on my own and not looking for anything overly Healthy when Snacking
